Pompano's Nightlife

Pompano Beach has that special something about it. Whether it be during the day or night, there's something there. The day has a bright sunny smile that helps everyone to relax as the night begins to fall. When night finally sets in, Pompano has a paradise to share with everyone. Once the sun goes down and the gorgeous array of lights come on, you know you're there.

There are so many different things to do and places to go for people of all ages. Pompano has something to offer to its natives as well as seasonal visitors. Summer or winter, spring or fall, the climate is pleasant throughout the entire year. Whether you're wearing a pair of shorts and a T-shirt or bundled up in sweaters, a walk along the coast is so refreshing and comforting to all. You can sit on the sand and watch a sun rise or set or just stare at the stars. Who knows; you might be the lucky one to catch a shooting star and wish upon your wildest dreams.

Pompano Beach; there's no place like it.

Oh Wow!

Oh wow, they put my picture in the yearbook! Some people are just thrilled to death when they see their picture in the yearbook. Some people get a bit upset when they discover their picture isn't in the yearbook. Therefore, this year we have tried to no end to place some sort of a picture of all the students in the yearbook.

The fact that people have different interests and attend different functions really made this a challenge. We sent our photographers throughout the school and city of Pompano at various times during the day and evening to get pictures of students.

We finally completed the job, and received an assortment of terrific photos; some were of students having fun together, and some were of a more serious background. Someone once said that a picture is worth a thousand words and these pictures are definitely worth much, much more.

This is the only reason why they come to school.

Anne Berringer shows us her pearly whites.

Katie Bowl watches with anticipation.

We told you we were gonna take a picture.

Three wild and crazy guys.

Music To Rock To

Many changes to the rock music industry were brought about this year. Groups that were quite popular died out, while groups from a few years back made a miraculous comeback. Among them are Def Leppard and David Bowe. The Animals, The Hollies, and Bob Dyland have reunited again. Robert Plant had made it big on his own. The "concert of the year" was unanimously The Police concert.

We can't forget The Doors, The Who and The Rolling Stones. These groups are among the backbone in rock and roll music. All of them have a style of their own, bringing together tens of thousands of fans in one place to hear them play-truly concerts to remember!

Earlier in the year we took a poll and asked students the following questions:

Name Your Favorite Rock Group Or Band.

"Def Leppard"	— Lorine Davey
"U2"	— David Benjamin
"Blue Oyster Clut"	— Rick Berry
"Cheap Trick"	— Tim Logan
"Rush"	— Rick Smith

"Bonnie Tyler"	— Felicia McIntosh
"Janis Joplin"	— Scott Gallagher
"Stevie Nicks"	— Jane Kelly
"Joan Jett"	— Patti Pokriots
"Donna Summer"	— Monica Johnson
"Pat Benetar"	— Jahdie Wooten

Name Your Favorite Male Singer.

"Adam Ant"	— Kim Keller
"Billy Joel"	— Lisa Rhodes
"Phil Collins"	— Carl Prince
"Tom Petty"	— Nicole LaMee
"Mick Jagger"	— Patti Pokriots
"Jim Morrison"	— Lori McDace
"Robert Plant"	— Gigi Davis

Name Your Favorite Album.

"Synchronicity"	— Kathy Pelletier
"Frontiers"	— Jodi DeCrescito
"Foreigner 4"	— Chris Slack
"Stairway to Heaven"	— Jeff Maddock
"Pyromania"	— Julie Kallin

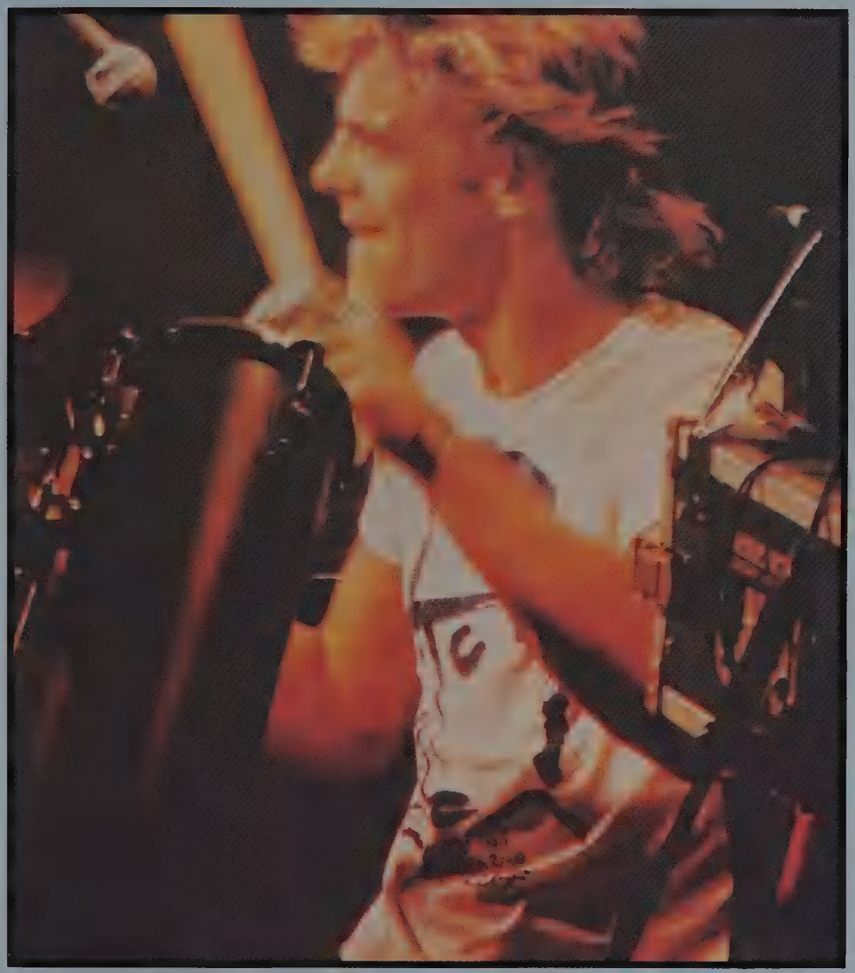
"Hot Rocks"	— Brad Kaminski



Stewart Copeland jams out for the crowd.

"Bono," from the group U2.

The Police: Andy Summers, Sting, and Stewart Copeland.

Adam Ant, desperate but not serious.

Pep Rallies Promote School Spirit

Pep rallies play an important part in school spirit. They promote much excitement and wide-spread enthusiasm. A pep rally helps to circulate the feeling of energy and vigor. It is a time when the entire school gets together to cheer on their favorite sport. It is also a time for each class to show their individual spirit.

Not like most schools who just have a pep rally for football and basketball, Pompano has pep rallies for all sports. This shows all the different sports that we are behind them one-hundred percent. With the help of the band and cheerleaders, the "get fired up" feeling is spread throughout the entire student body.

There are many clubs that help promote school spirit. The pep club is one. The SAC (Senior Athletic Club) and SACETTES are another. School spirit has grown tremendously this past year and is a terrific example for the years to follow.

Spirit is the key word.

Everyone agrees; Pompano's number 1!

The Varsity cheerleaders lead the alma mater.

Pompano gives pep rallies for all sports.

Artfully Crafted

Art has many definitions. The word art is often used in a more specialized way. Many people think that to paint a picture is all that art is. Art has such a wide scale of activities. Singing, making or playing music, molding clay, and painting a picture are all forms of art.

Anyone who loves music, who falls into another world in a book, or spends hours painting a sunset, knows the satisfaction that can be found in art. Sometimes it is quite difficult to express this satisfaction in words. In some ways, works of art are highly valued in our lives. It is this value that makes the difference between art and entertainment. It may give us pleasure; but for the artist, there is a deep satisfaction.

Never Gonna Give It Up

Never gonna give it up is what many people say about Pompano Beach High School. For the past few years, the school board has been trying to close down our high school — a school that is a landmark in Pompano's history. Parents have gathered together in a variety of places in South Florida to express their feelings about closing down the high school.

Protests have been held and petitions have been signed in favor of keeping it open. What difference should it make about how old the school is. They just want to close it down and bus the students off to who knows where. If the school was unsafe as far as construction is concerned, it would be one thing; but it's not unsafe. If we didn't have enough teachers, it would be another. We have enough. We have a community that supports us highly and many concerned parents who care what happens to the high school. In fact, some teachers are teaching children of former students that they have had. Generations have graduated from Pompano; and with continued support, even more generations will graduate from P.B.H.S.

Concerned parents gather in the small auditorium.

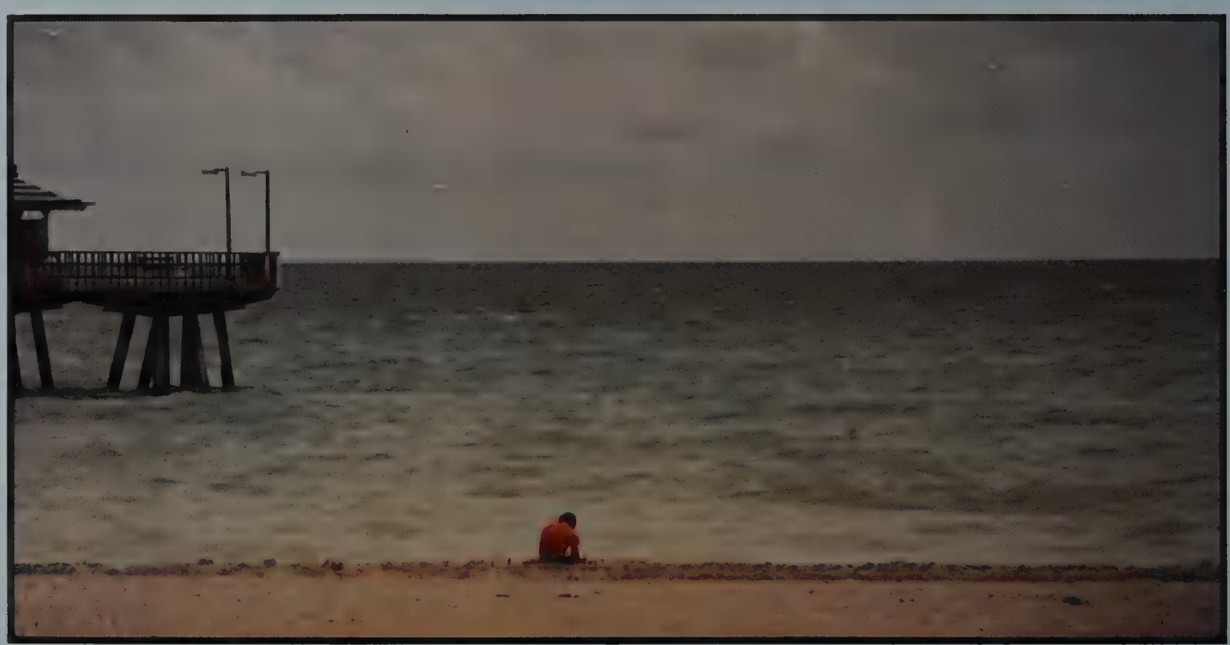
Other Diversions

Often people enjoy the company of someone else. Other times, they enjoy complete solitude. There is a time and place for each of these moods.

A volleyball or football game is a great place to get together with a bunch of people. Going out to eat or to a movie is a pleasant setting for two or three people to talk about what's going on and have a quiet evening. Or just sitting on the beach is probably the best place to go to be alone. All you see is what seems to be an endless pool of water that has a comforting sound as the waves roll in and a cool breeze that makes the setting.

Sometimes you just need to be with dozens upon dozens of people, while sometimes just a few friends is fine. On the other hand, everyone needs that time alone every now and then to think things over. What ever the case may be, we had fun and will always remember that Pompano is number 1!

Dorthea Nesch jazzes up a volleyball game.



Sometimes it's just nice to sit and think alone.

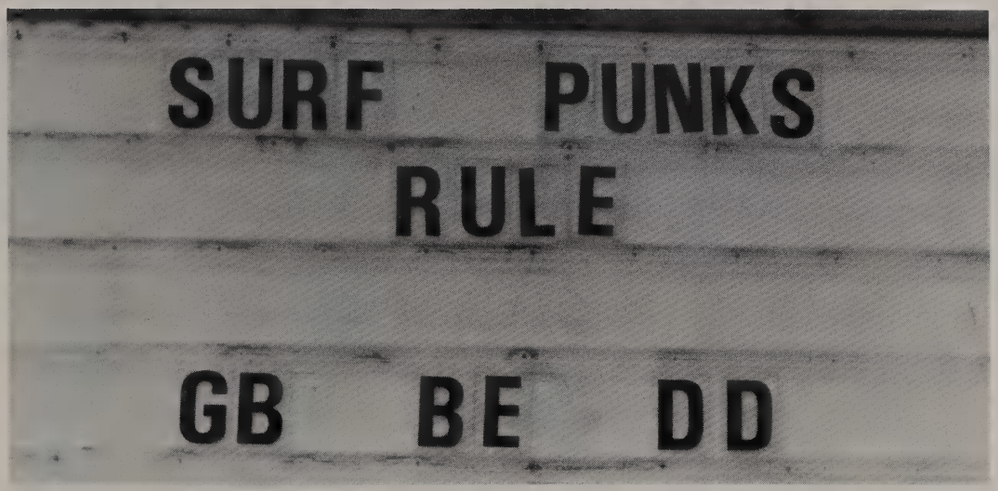
RE: TABULATION OF DAYS ABSENT

In accordance with the School Board approved policy on attendance "High School students must be made aware that the fifth (5th) absence whether excused, unexcused or permitted from any class during a forty-five (45) day marking period shall result in "No Grade" (N/G) earned for that class unless the time absent from that class shall be made up... after school...as determined by the principal... Absences exempted from this rule are: a. those supported by a medical excuse; b. those resulting from an external suspension; c. those related to school sponsored activities." If you or a student question any of the absences in a class, please feel free to see the appropriate Assistant Principal for clarification.

Students are to sign up in the Assistant Principal's Office on a day-to-day basis in order to do make-up time that afternoon. The student is to give this form to Mrs. Bauerband in C-5, at 2:35 p.m., when he/she goes to do his/her first make-up hour. Students are to bring work with them to do for the hour.

Pompano's Italian Stallion, Paul Sennello.

An attentive after-school class.



As a person goes through life, there are many changes he will experience. Starting Elementary School, starting High School, going away to college, getting married, and starting a career are challenges most people will meet. We must learn to accept changes and deal with them.

Freshman year is a very big step up from Middle School. Freshmen face new and exciting challenges. Every year the Band holds initiation to make the Freshmen a part of our school.

This year a new school policy was initiated concerning absentism. The purpose of the policy was to cut down on the number of frequent absenses. The thought of having to make up time after school was meant to be a deterant to those who were habitually absent.

The Student Senate found a new way to use the marquee this year. Any student could place an announcement on the marque for a day at a cost of 20¢ per letter. The marquee was a good way to say good bye, announce birthdays, and send personal messages to friends.

Class rings are a tradition that has remained for many years. As a Junior one is given the opportunity to purchase a ring. They are a symbol of the forthcoming graduation and a keepsake to bring back memories.

Computers

Computers, once thought to be a thing of the future, are now a thing of the present. With new computer classes and math classes, most student will have gained a basic knowledge on the usage of a computer.

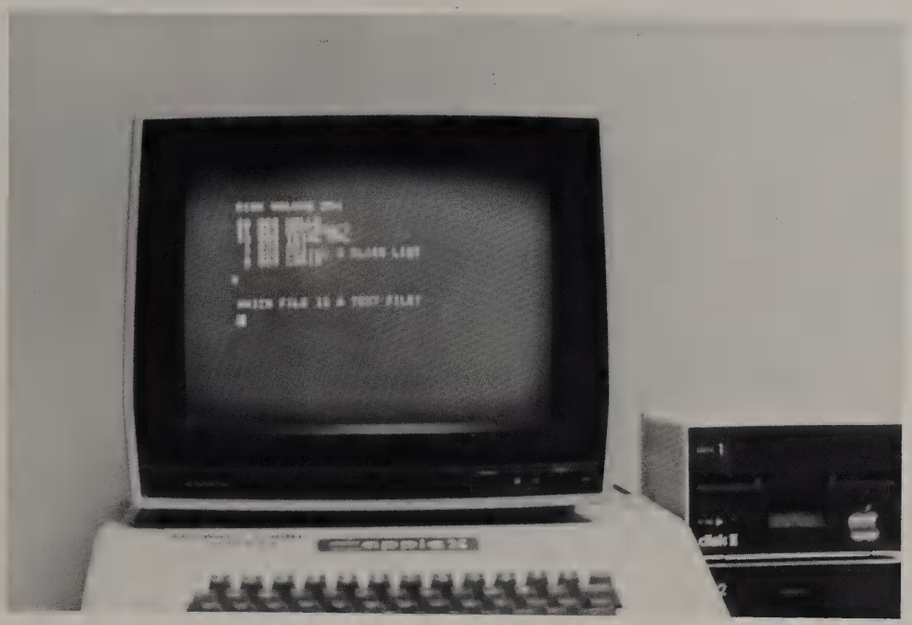
Whether we like it or not, we are now living in the computer age. Computers affect everyone, directly or indirectly, almost everyday. With the rapid advancement of technology, the world is becoming more computer-oriented. Soon those not possesing basic computer knowledge will be considered illiterate.

Computers are being produced and sold at a tremendous rate. The uses we have for them are as unlimited as the tasks they can perform.

Dawn Dowling doesn't seem to like the computer age.

It's your turn!

COMPUTERS.?!



Do you know the answer?

Another fun day in computers.

What's so funny?

Working For The Weekend

The students at Pompano Beach High School are quite involved in many outside activities. When the bell rings at 2:20, many students find themselves rushing to their cars to go to an after-school job.

The students that have jobs do not have much time to do anything else. Having a job takes away from free-time at nights and on the weekends.

Most of the students are trying to make extra money to buy clothes, make car payments, and go out.

Having a job is a big responsibility because it means having to come home from school, rushing to do homework, then going to work. As young adults, it is good to have a job though, because responsibility is learned. Along with learning responsibility comes the appreciation of how difficult it is to make a dollar these days.

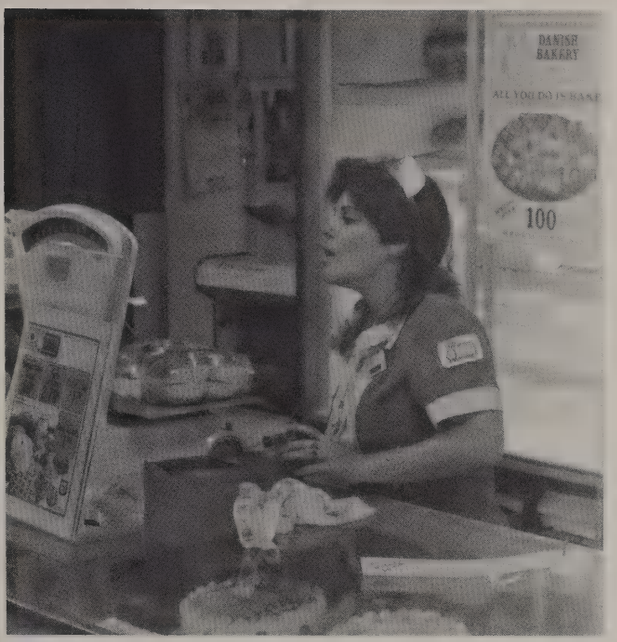
It's quitting time at Shell.

Taking a break, Jim Bogard?

Sharon McClay says "What, not enough money?"

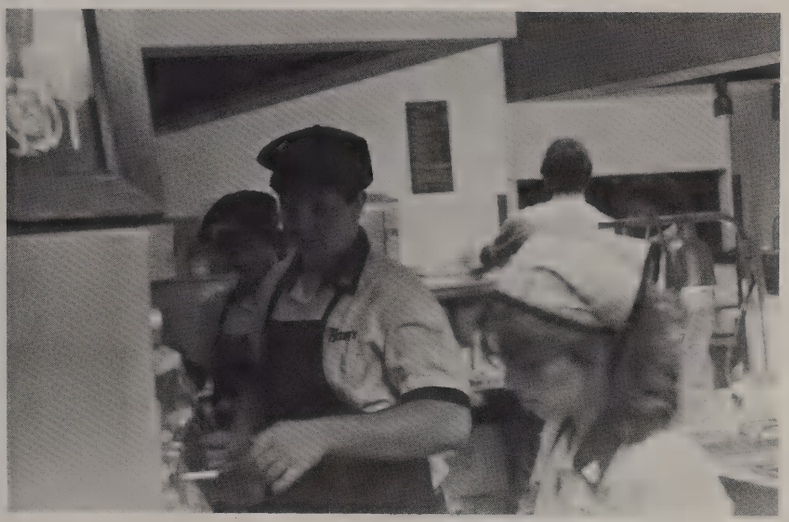
Dedee Sweet says, "I QUIT!"

Steve Kramer and Rick Smith work until all hours of the night.



Elena Cicelase always offers a helping hand.

Susan Wells is dumbfounded by modern computers.



We're Wendy's kind of people.

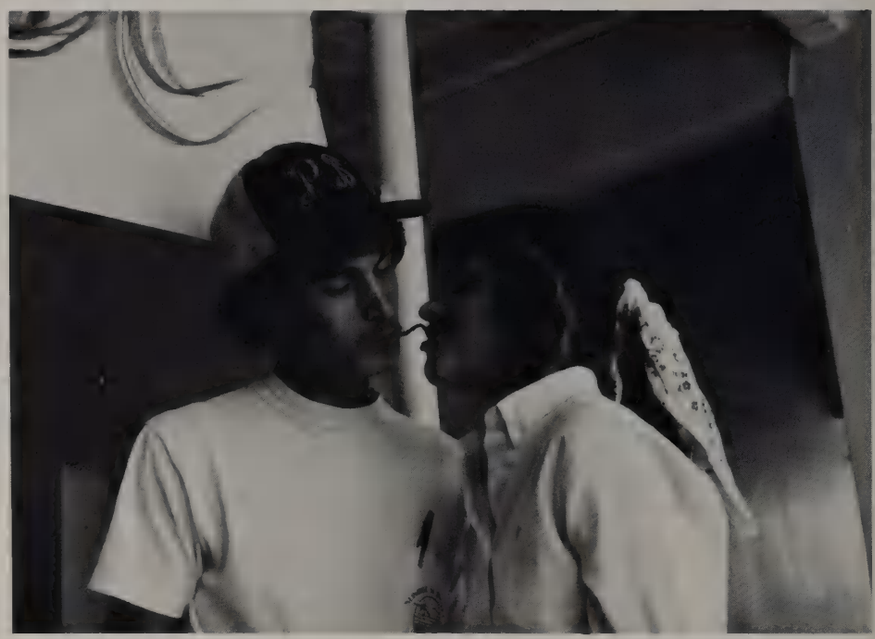
Lynette Bowman and friends.

Candy Bowen works hard for her money.

Variety Is The Spice Of Life

A variety of events took place during homecoming week, ranging from the humour of the Mr. Legs contest to the elegance of the crowning of King and Queen and the dance. This homecoming was one of Pompano's finest. Participation was outstanding. The bonfire was one of the largest that Pompano Beach High School has ever had. The halls were decorated to display class spirit. A large number of students dressed up on International Day and Crazy Day.

School spirit was at a peak as both students and faculty joined in the various festivities.



And you thought whipped cream was kinky!

A mountain of graffiti.

The gang's all here.

An enthusiastic team.

Do you have enough flowers, Cheryl Rataiczak?

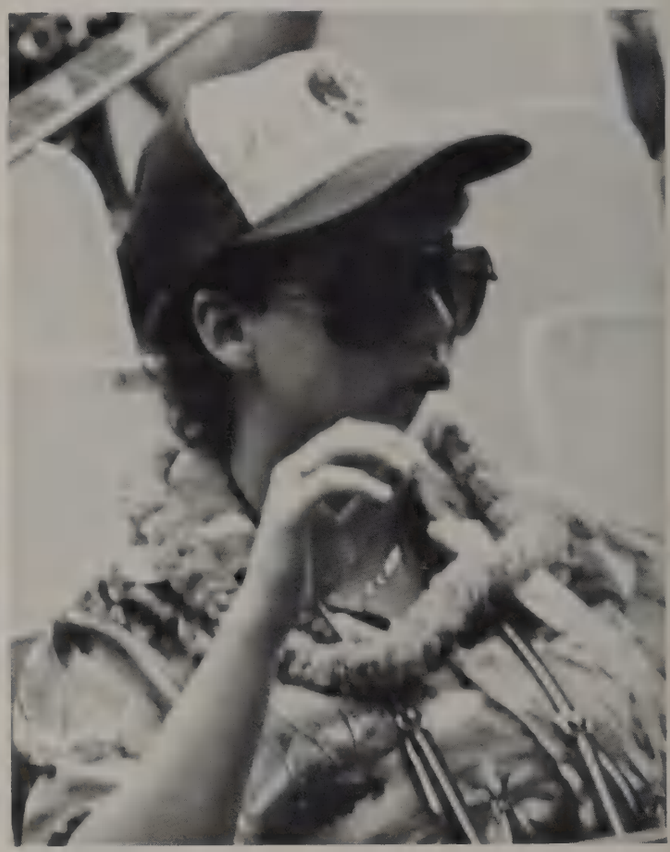
Internationally Crazy

The Elephant Man comes to Pompano High.



Tourist season already?

The theme for homecoming this year was Pompano goes International. Each year we have a day during homecoming week that is dedicated to our theme. Many students dressed up to support this theme. The winner of the International Day contest was Susie Ogden, who dressed up as a belly dancer from Bagdad. She received two tickets to the Homecoming Dance as her prize.

Another beloved tradition of homecoming week is Crazy Day. This year's Crazy Day was a huge success. Many people dressed up in wild and crazy outfits. We had punk rockers, smurfs, siamese twins, vampires, transvestites, and many more. The winner of the Crazy Day contest was Chris Sinnott. Chris was dressed as a tourist and she received two tickets to the Homecoming Dance for her fantastic outfit.

"Mr. Legs!"

The Mr. Legs contest was held during both lunches. Any guy wishing to enter was welcome. Both lunch hours had some really great looking legs, but only one pair could win. The winner of first lunch was Steve Zajacz and second lunch was Keith Bowman. Good going, guys!!!

Billy Eberhart, Shannon Kelleher, Rod Skirvin, Joe Theobald, Steve Zajacz, and Pat Mulroy.

Steve Zajacz, 1st Lunch winner.

Hard to choose!

Keith Bowman, 2nd lunch winner.

Linda Gruneisen says, "Hey, Mr. Legs! Be my partner!"

Rob Spena, Keith Bowman, Garo Kalpakjian, Tevvy Washington, David Fredricks, David Hayman, and Luis Rodriguez.

Pompano's Towering Inferno

The bonfire was held the night before the Homecoming Game. It was one of Pompano's largest ever. Most of the students came out to join in the fun and excitement. The Pep Rally was held in the gym following the bonfire. In the gym, the cheerleaders helped to get the students excited about the upcoming game between Pompano and Gibbons. Routines were performed by both the Varsity and J.V. cheerleading squads.

We've only just begun.

The crowning of Brad Kaminski.

This year's Homecoming queen finalists were Amy Baxter, Anne Berringer, Kim Ford, Dawn Hoble, and April Kneer. This year's Homecoming king finalists were, Doug Boehme, David Fredricks, Brad Kaminski, Garo Kalpakjain, and Rod Skirvin.

As halftime drew near, the crowd became excited and impatient for the crowning of the 1983-84 Homecoming King and Queen. With the ten finalists nervously awaiting Mr. Perry's announcement of this year's king and queen, the crowd became silent. With everyone in suspense, Mr. Perry declared Amy Baxter Homecoming Queen and Brad Kaminski Homecoming King.

They were crowned and Brad and Amy began their reign as the 1983-84 royalty of Pompano Beach High School.

Pompano gets fired up!

The 1983 Homecoming football game began with a pre-game mini parade. The parade included the float winners: 1st place went to the Chorus Department whose theme was Africa. The 2nd place winners' were Student Senate whose theme was the tropical islands. 3rd place went to the Exchange club. They represented Greece. The 4th place winners' were the Interact Club. They made a tribute to Ireland. 5th place went to the Italian club. There should be no doubt to which country they made a tribute to. The parade also included the four class representatives and their escorts, and finally the 1983 Homecoming Court.

The enthusiasm of the crowd was felt by everyone as the kickoff began at 8:00 p.m. Even though we did not win, pride and respect helped us hold our heads high as we sang our Al ma mater.

Since our freshman year, we have been together through everything. Between car washes, candy sales, picnics, and Pep rallies, we've always stood out in a crowd. Participation and school spirit have grown tremendously. We have shared many great times as well as bad ones, but we are still determined no matter what to make something of ourselves. Now as we begin to part, we head down that long stretch of road that only God knows what is in store for us, we begin a new part of our lives, and we meet new people; but whatever the future holds, we will always remember the people and places that made our high school the best they could ever be!

Silver Knight Award

For several years, the Miami Herald *has sponsored the Silver Knight's Awards. High schools in Broward County select some of their outstanding seniors as candidates for these awards. The candidates then apply for a category in which they are talented. The categories are art, atheletics, business education, drama, English, Foreign Language, general scholarships, industrial/vocational, journalism, mathematics, music, science, social studies, and speech.*

The essential qualification is service. One must show that he has given service to school and community in his field. Achievement, leadership, and character are also requirements.

The award is a Silver Knight statue and $750. Three runners-up receive $50 and a momento, and each candidate receives a certificate of merit and a pin.

1984 Silver Knight candidates.

We've made it this far. The Class of '85 is still running strong. Our junior year has been quite successful. We've had a lot of fundraisers. Our biggest fundraisers are the Homecoming dance which is sponsored every year by the junior class. The money raised is going towards our Senior Prom. We also held a "Battle of the Bands" and we've had a lot of fun holding car washes. The main concern of the Junior Class was getting students involved. During the pep rallies, the juniors showed a lot of student spirit and weve gotten a lot a students involved with class Competitive Activities. One of the things many juniors looked forward to this year, was receiving Class rings to show their school Spirit. The year is over for the Junior Class of "85. Next year there will be more memories, more activities, and more fun.

Clint Lyons really seems to enjoy Mr. Martin's biology class.

The Class of 86 has improved in enthusiasm and spirit among the lass — a big difference from being Freshmen.

Our advisor this year was Ms. Wheeler; she was a big help to us his year with all our activities.

We are proud to say that this class has been a great help with all ur fund raisers and that we have made a lot of money from our car ashes, candy sales and dances.

We feel this year's Sophomore Class has been very active in fund aising and trying to promote more school spirit within our class.

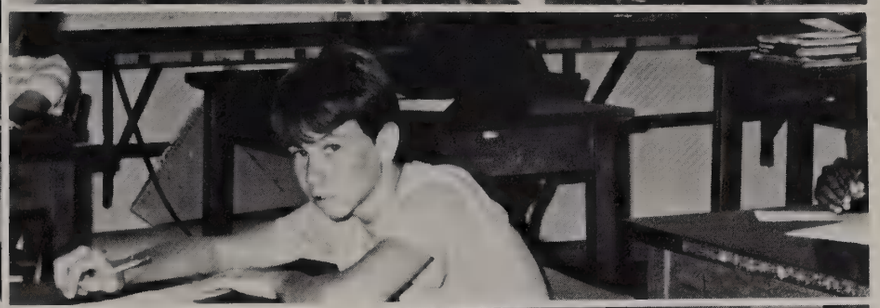
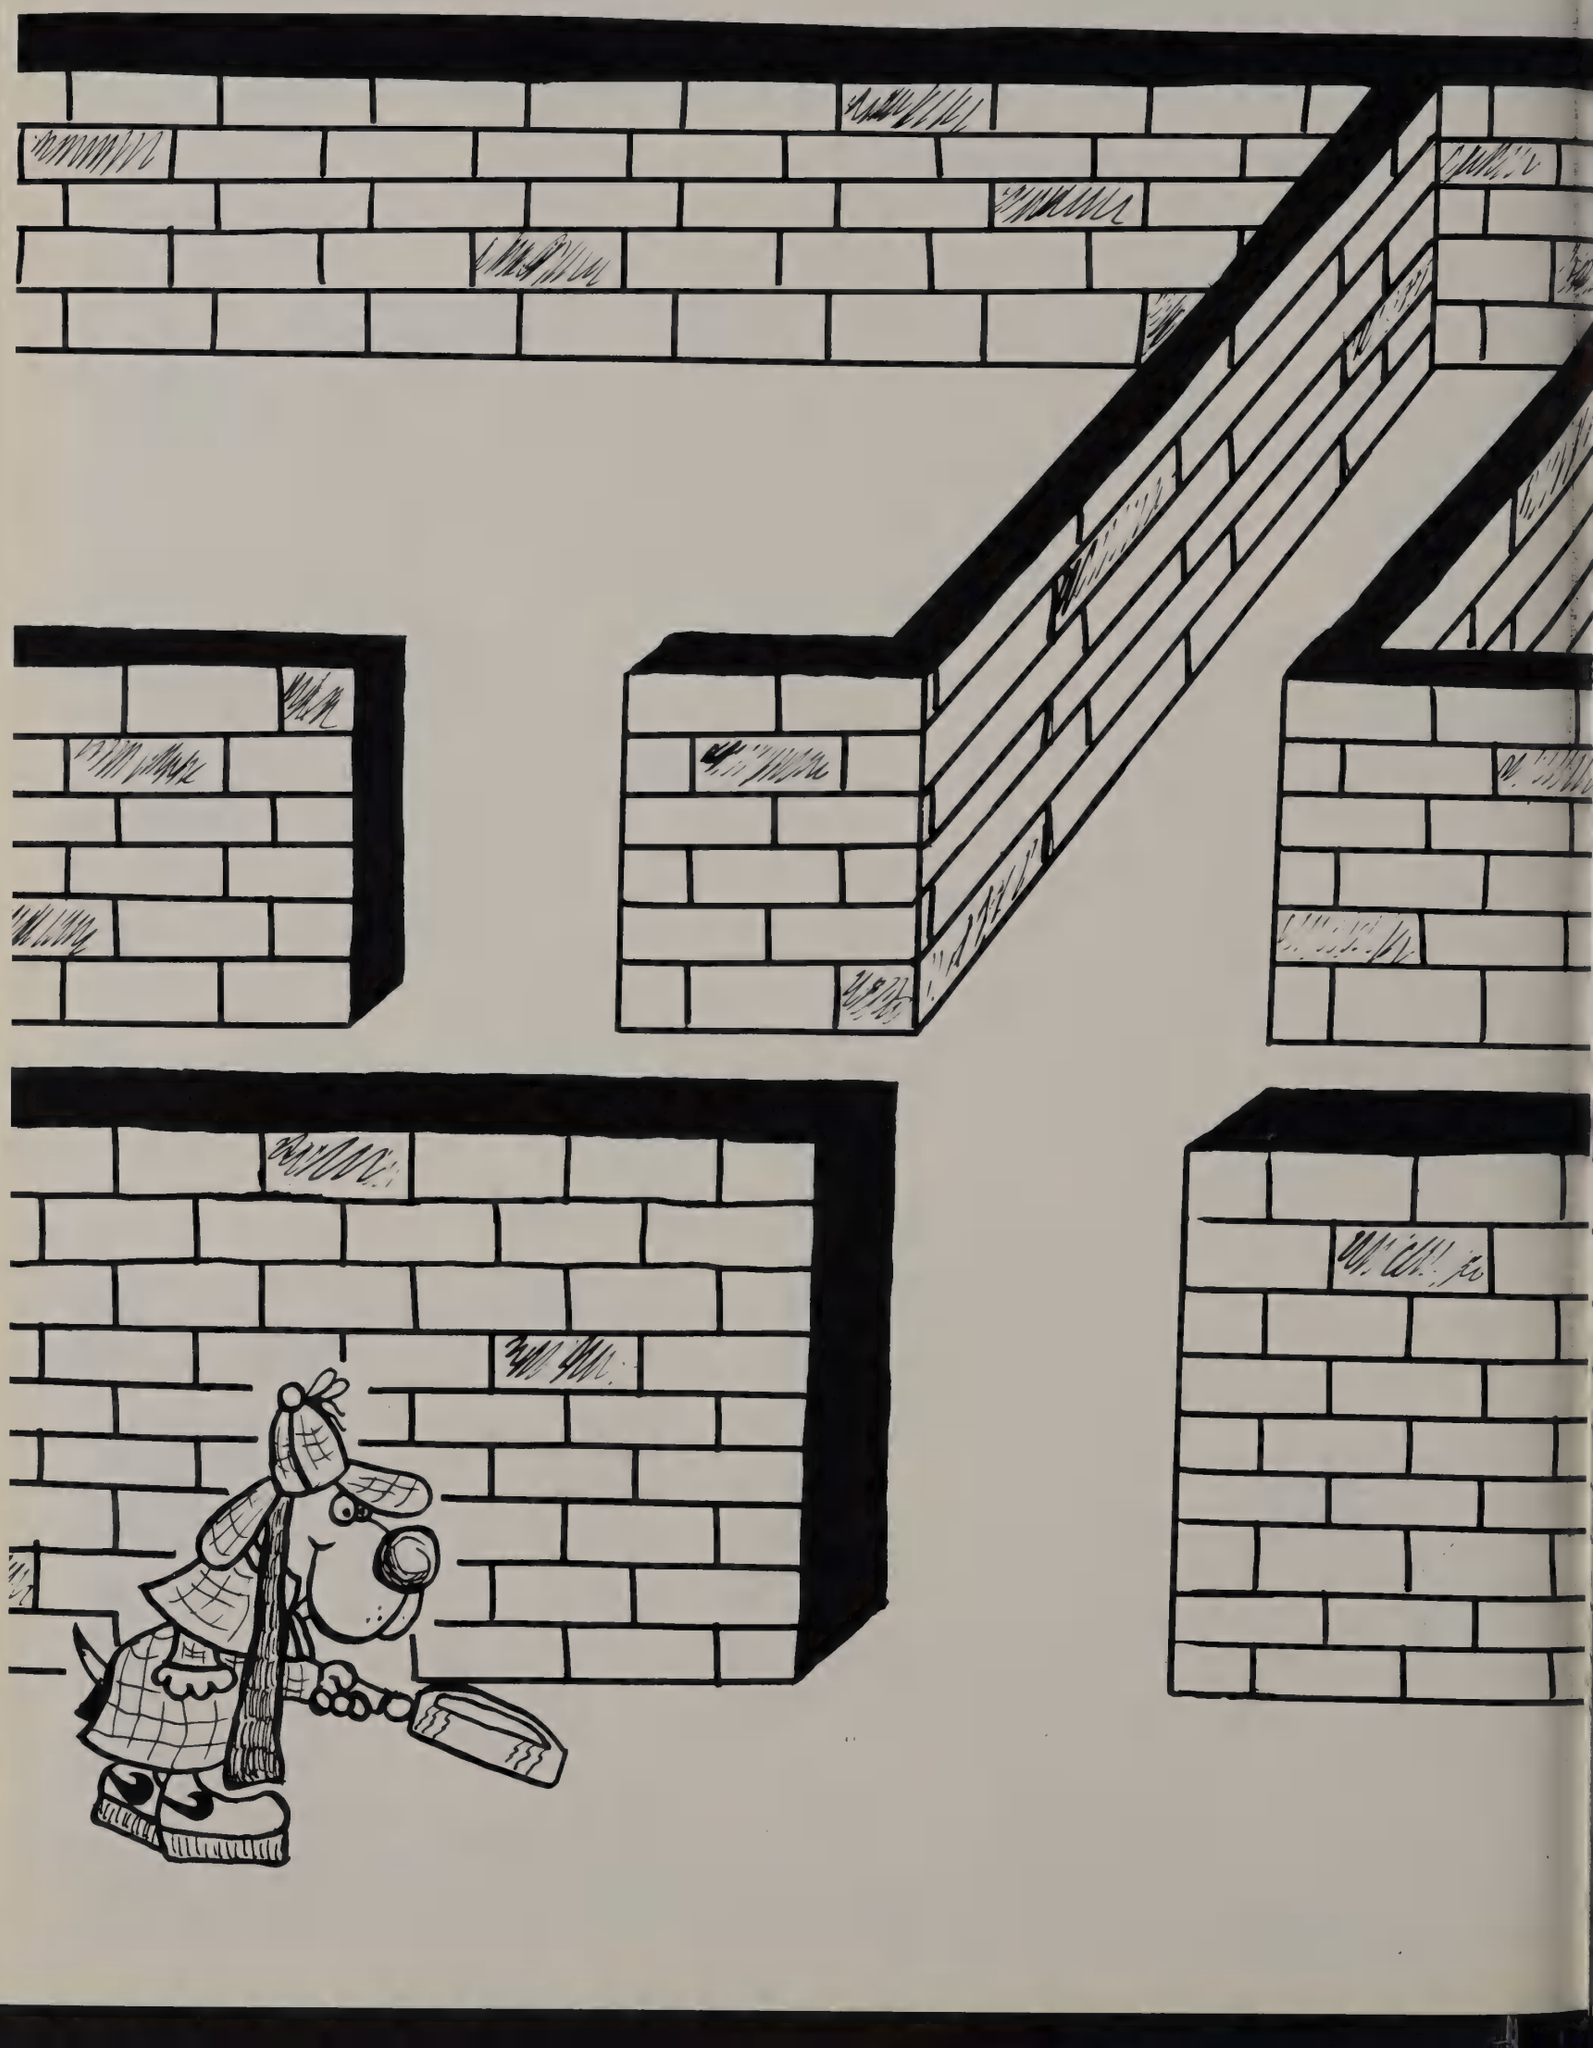
The Freshmen Class started off to a good start. Our first activity was a car wash where we made $80.00. Homecoming was a success for the Freshman Class and the entire Senate. The Freshmen were in charge of the Games and Skits on the patio at lunch, the Judging Booth for the parade and the Alumni Booth at the Football Game. We also decorated D-Building for Homecoming Week. Our class would like to thank Ms. Marcus and Mr. Lakes, our Advisors for all their help and cooperation.

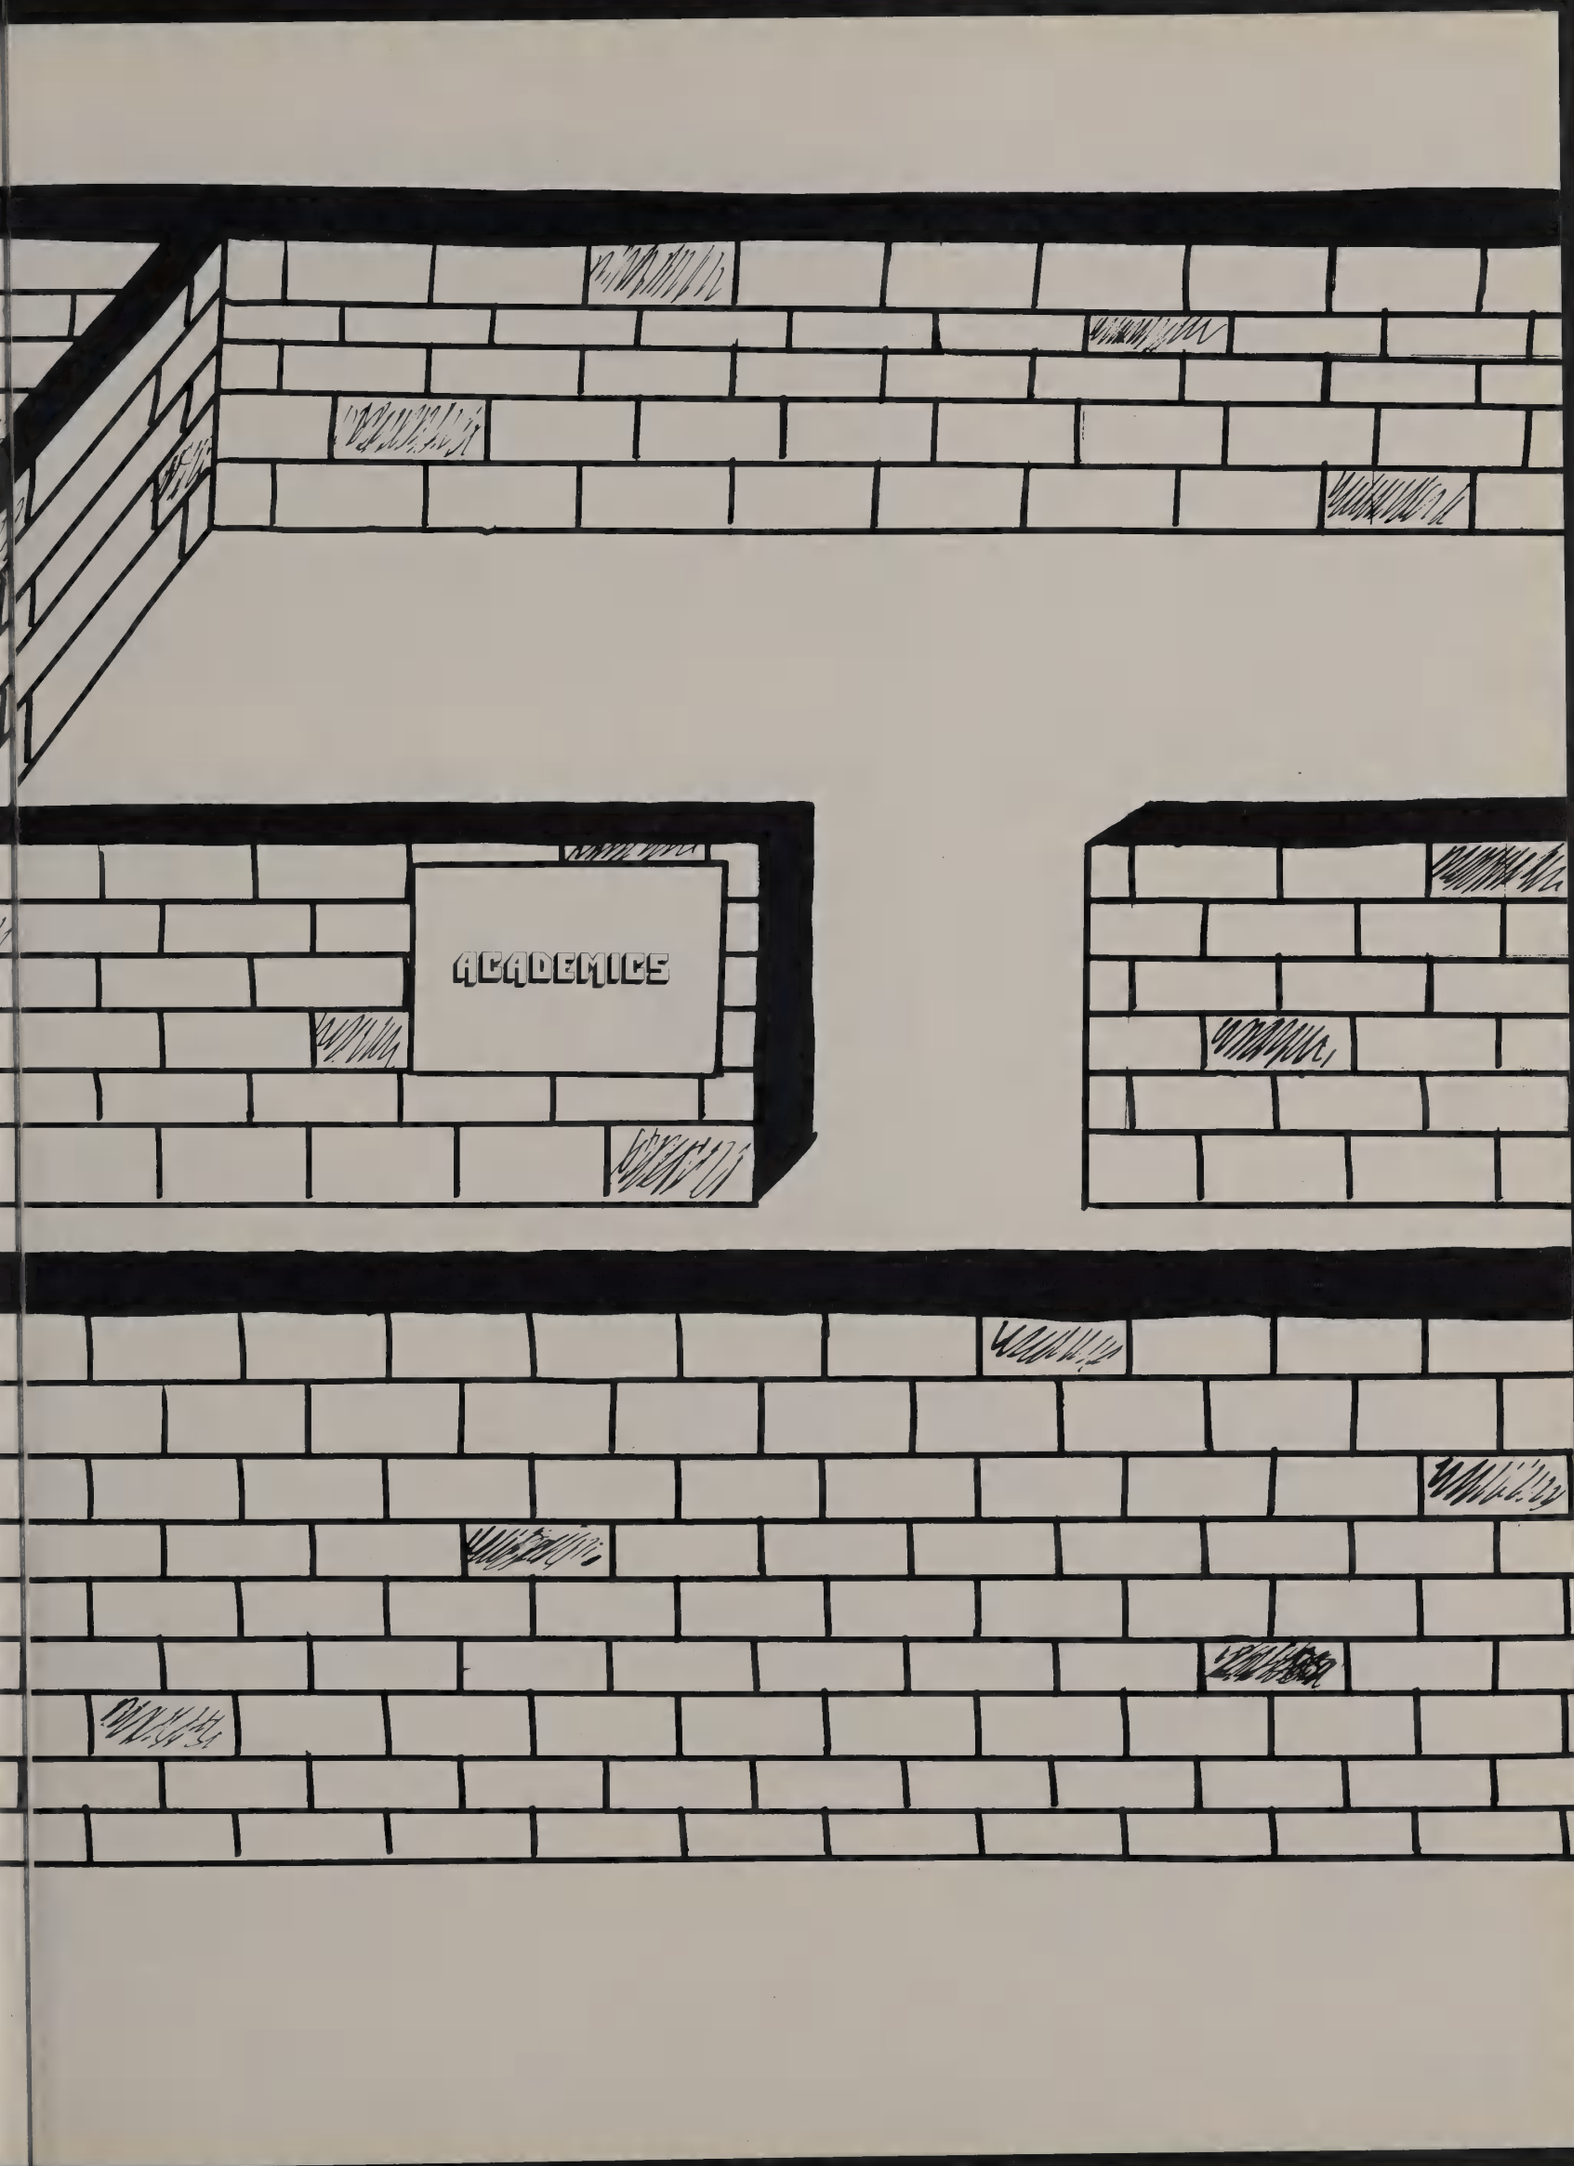
During the year we had several car washes and other fund raisers to raise money for the Class of '87. We feel it has been very successful year at Pompano Beach High School. Our officers have represented the Class of '87 very well.

Mike Beiter,
President.



WHO CAN IT BE?





ACADEMICS

Administration

Duties for our administrative staff changed for the 1983-1984 school year. Dr. Myers wanted the students to feel welcomed and was frequently seen greeting students and making sure the teachers did the same. He was also very busy overseeing the school budget. When asked how he felt about Pompano Beach High School as a whole, he replied, "There isn't any other place I'd rather be."

The Administrative Assistants, formerly called deans, were given the more impressive title of Assistant Principals; along with the title, came more responsibilities. Mr. Maltby was the administrator of attendance and discipline for the freshmen class. His duties also included building and maintaining the master schedule of classes and coordinating curriculum development. The sophomore class was divided this year between Mr. Smith and Mrs. Wiggin. Mr. Smith was responsible for administration and discipline of A-M of the tenth grade and the junior class. He assisted the Athletic Director, Mr. Bremke, in providing support, management, and supervision of events, procedures and prioities. He also provided direction of the security program as implemented by the security officer. The Administration of attendance and discipline for the sophomore class N-Z and Senior class was the responsibility of Mrs. Wiggin. Her other duties included directing the Student Activity Program and coordinating the Alternative Education Program.

The 1983-1984 school year ran smoothly due to the superior quality of our Administrative staff. The closeness of the staff and the professional attitudes helped this school year be a success.

Mrs. Heede, Temporary Assistant Principal

Ms. Wiggin, Assistant Principal

Secretaries

Ms. Reiniger, Office Manager

Behind the scenes at Pompano Beach High School, we found many secretaries hard at work. These were the people who kept the school year from getting out of order. Carolyn Reiniger, the office manager, was mainly involved in running the office. She was also in charge of payroll. Anna Pennington, Mr. Maltby's secretary, assisted student body, managed the ninth grade attendance as well as withdrawals. Adrienne Rusnack was Mr. Smith's secretary. She handled A-M tenth grade attendance. Maggie Rhodin, Mrs. Wiggin's secretary, handled N-Z tenth grade attendance and the twelth grade attendance. Sondra Bass was the budgetkeeper. Her job included running copies, handling the switchboard, ordering supplies and sorting the mail. She also the athletic business manager. Elaine Downing, the bookkeeper, handled class fund raisers and club functions. The data processing clerk, Pat Jones was responsible for class schedules, schedule changes, and grades.

There was never a time that anyone could walk into the office and not find the secretaries busy keeping things in order and helping the rest of the administration do their jobs.

Guidance

The Guidance Department had a dramatic change this year. In the past years, there was a separate counselor for each class. This year the students were divided according to their last names.

Mrs. Von Ammon, the director of the Guidance Department, was basically responsible for the administration of the whole department. She also was in charge of the schoolwide testing program.

Mr. Le Fevre had the A-F students. In spite of the fact that it was only his second year as a guidance counselor, he did a superb job.

Mr. Berquist had the G-N students. He was a former counselor here at Pompano and returned this year to resume his old position. The break gave him a chance to recuperate and get back into the swing of things.

Mr. Wittstein, known as the "Witt of Oz", handled the O-Z students. He was especially busy helping students prepare for college.

The Guidance Department was known for all the assistance given to any student who needed it. The counselors helped with schedule changes, future decisions such as college or vocational school and personal problems that the students had throughout the year. Thanks to our Guidance Department, the students' academic year went extremely smoother.

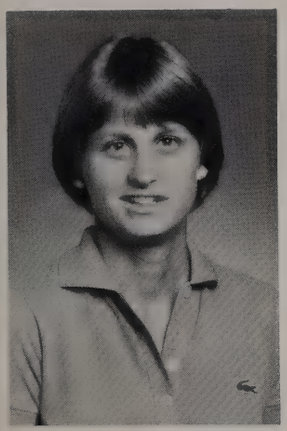
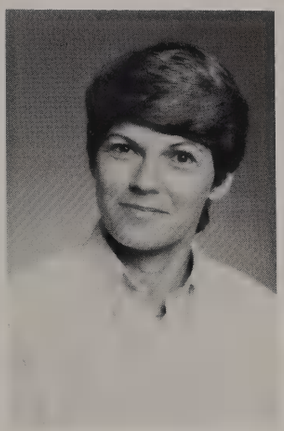
Library



Ms. Wheeler

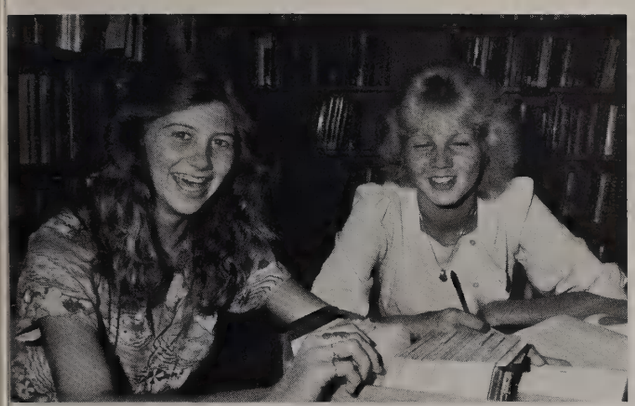


Ms. McDace

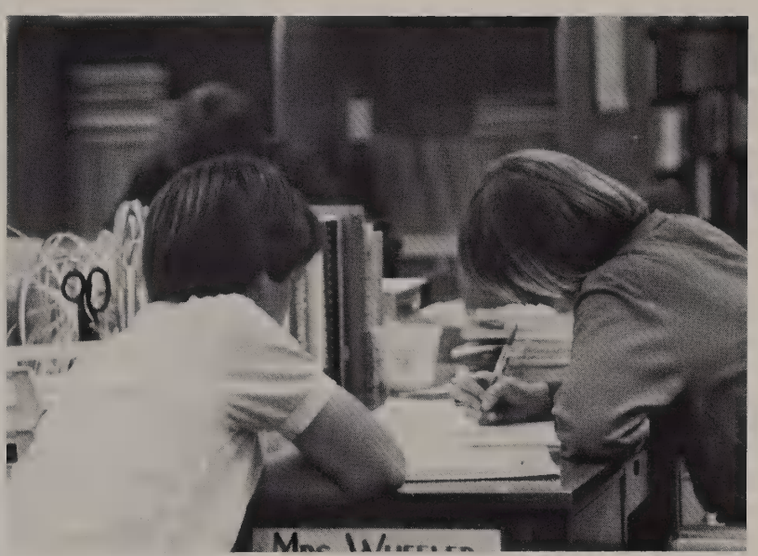
The Library here at Pompano Beach High School was a place to further your knowledge in numerous subjects, as well as the place to escape the traumas of high school life.

It was not an uncommon scene to see our library bustling with students working on a term paper or report using the many available encyclopedias, books, newspapers, and magazines.

These features of the library, along with many others, were kept in order by our hard working librarians. Thanks to them, our school year went as smoothly as possible.



Tammy Howard and Tessa Duran, what does it say on that book card??



Ms. Wheeler and Robbie Bernard, are you camera shy??

Rob Patanella and Hollie Steinke, leaving so soon??

Come on Chris Luber, Tom Selleck isn't the cameraman!!

Yes, Mr. Wilkner was serious when he said the report was due Friday.

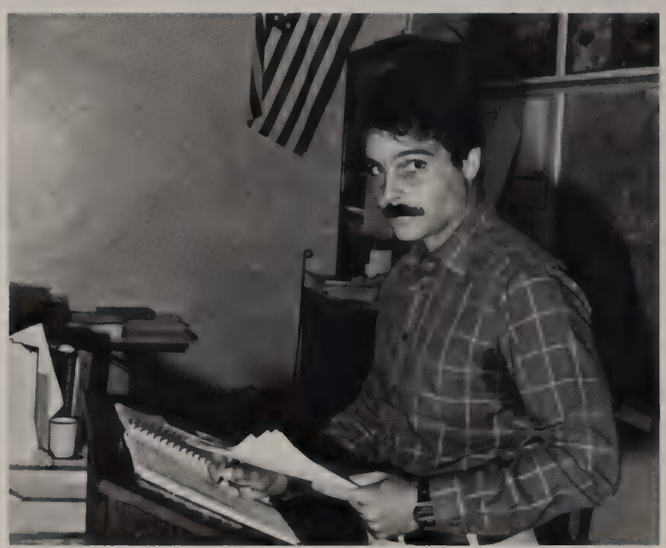
English

At Pompano it was required of the students to have four full years of English to graduate. Ninth grade was an overview of grammar, short stories, poetry, novels, and basic skills. Tenth grade was based on World Literature and basic skills. Eleventh grade is centered around American Literature and the final year, Twelfth grade, is comprised of British Literature. All four years consisted of weekly vocabulary, grammar, and reading assignments, and except for ninth grade, term papers.

An exciting innovation in the English curriculum this past year was the extension of the Writing Enhancement Program into the 10th and 11th grade.

We were fortunate to have such a fine staff in the Language Arts Department this year.

Who are you trying to kid Mr. Lippert? We know you're illiterate!



Mr. Marguriet, is Victoria standing outside the door?

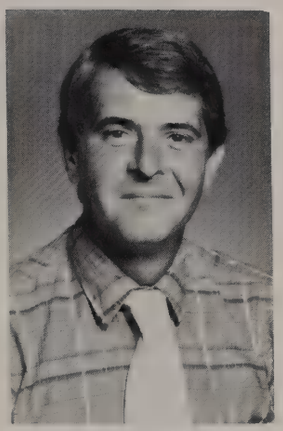
Miss Jones — English 3 Advanced, Publications

Ms. Kleinhenz — English 2

Ms. Langteau — English 3, Drama



Mr. Lippert — English 2, English 3

Ms. Prescott — English 1, English 1 Advanced

Ms. Wesley waves to her fan club.

What are you smiling about, Tex?

English

"Of course you will enjoy drama," says Ms. Langteau.

Math

The Math Department this year offered classes for just about every level of mathematics known to modern man.

For non-math majors the curriculum offered Remedial Math 1 and 2, General Math 1 and 2, Consumer Math, Pre-Algebra, and College Review Math. For a step above regular math courses, students were offered Algebra 1 and Geometry. Lastly, for those students who lived to do math, there were much more advanced courses such as Algebra 2, Trigonometry, Analytic-Geometry, Math 5, Computer Math, and Calculus.

With such a superior Math Department, any student who wished to learn math was given the opportunity. The teachers were encouraging and challenging; and therefore, the students excelled.

Watch out for that pi above your head!

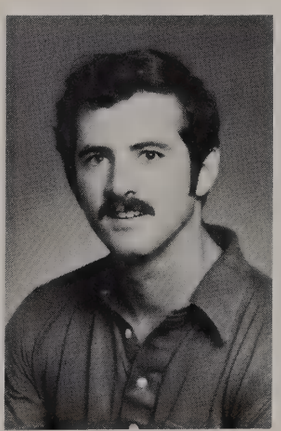
Ms. Lambert — Geometry, Gifted Geometry, Algebra 2

Ms. Merricks — General Math, Algebra 1, Algebra 2



Mr. O'Neil — General Math 2, Algebra I

Science

This year there was an increase of interest in the science field within the student body and staff. New clubs were developed based on scientific technology. One of those clubs was Marine Biology. The sponsor was Ms. Blow who has an AB degree in Biology. The club was centered around the study of Marine life and careers in the field of Marine Biology. The other club was JETS, Junior Engineering Technological Society, sponsored by Mr. Gillespie. The main purpose of this club was to show a select group of students, in advanced science courses, the many engineering related careers to help them in their career decisions.

This year's staff brought on an understanding of the numerous science fields, from general science to the complexities of Physics, Chemistry, and Biology. The head of the Science Department was Mr. Martin, who also teaches Biology. It was because of this staff of dedicated and involved science teachers that the students gained such a great interest and understanding of the various sciences.

Mr. Rollins: O.K. class this is your assignment.

Ms. Blow smiles at the sight of Mr. Gillespie across the hall.

Mr. Sanders fuels up on a Monday morning.

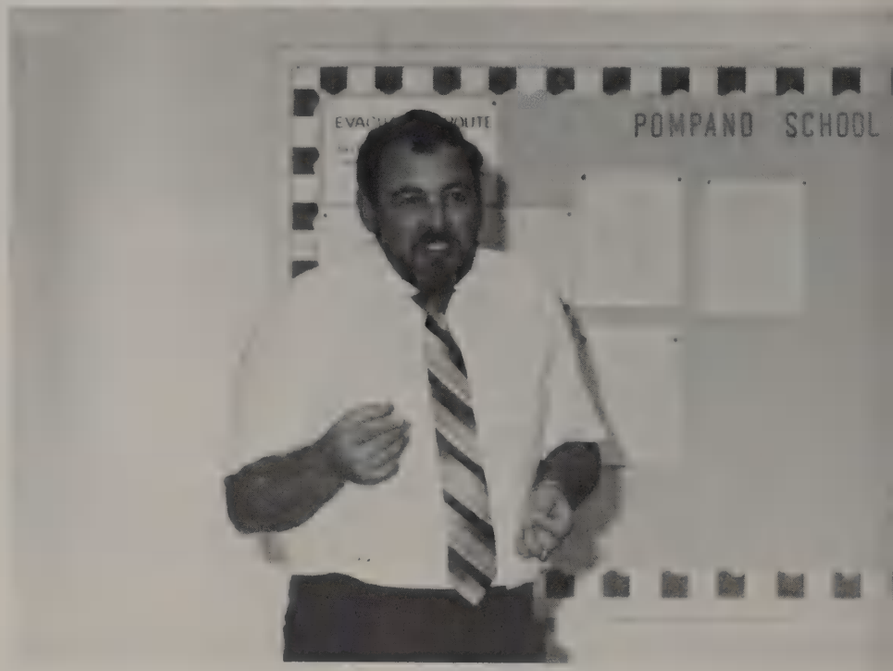
Ms. Volpe — Chemistry, Bilingual Science, Health

Science

Social Studies

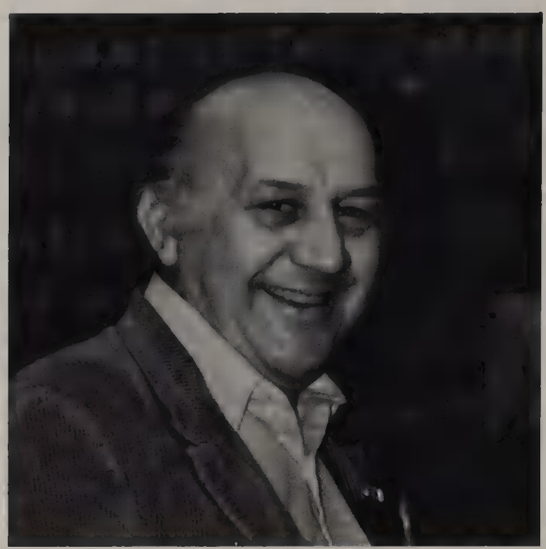
The Social Studies Department dealt with World History, American History, World Geography, Psychology, Law Studies, Economics, Student Senate, and Contemporary Affairs. The teachers discussed the problems of modern day living as well as problems of the past. They also tried to impress the importance of human behavior, both present and past because that is what shapes the world for the future.

The students were given a well-rounded view of how the world and its people lived and reacted to living in the past, present, and future. The teachers sought to have the students comprehend how the world has changed and how it will change.



Mr. Randolf says, "Shut uppa your face."

Ms. Moyer — World Geography, Sociology, Adv. World History



Mr. Planutis, you're such a fox!

"No, you may not see your grades!" exclaims Ms. Moyer.

Mr. Randolf — American History

Mr. Watson enjoys his job.

Mr. Wilkner poses with his relatives.

Mr. Tavitian — American History, World History, Psychology

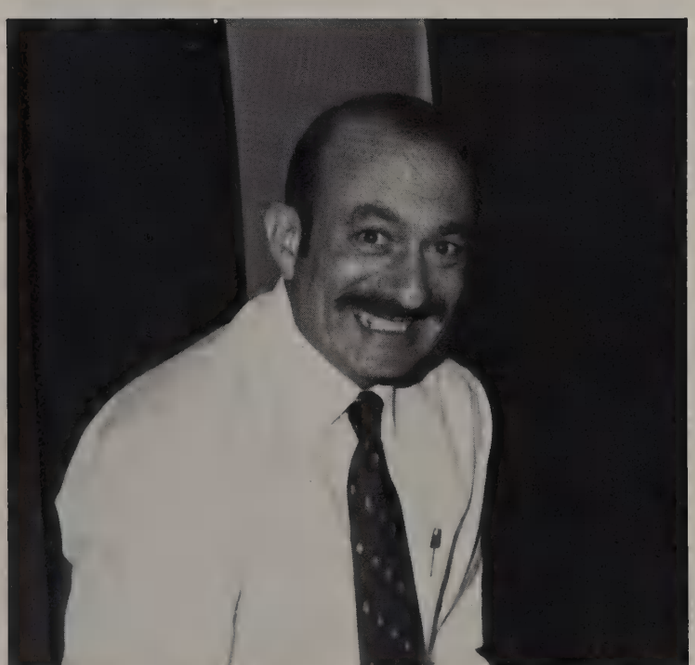
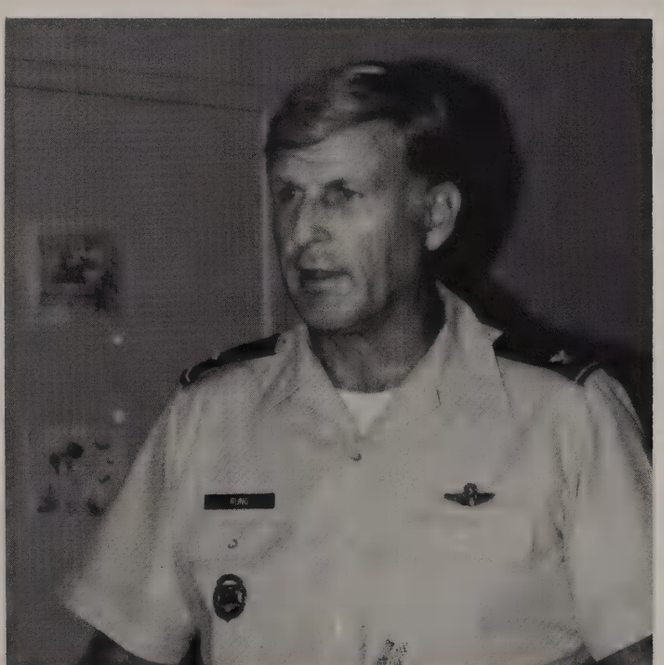
Col. Rung — ROTC

Chief Williams — ROTC

Mr. Tschetter — ROTC



"O.K. God, you do have something to do with it!!"



Col. Rung says, "At ease!"

Social Studies

Business

The Business Department was quite thorough this year. The teachers taught classes which the students could use long after they graduated. Courses in Typing, Clerical Office Practice, and Business Math gave the students a taste of office life. Classes such as Recordkeeping, Accounting, and Shorthand opened the world of business to the students. Lastly, courses in Business Management and Business Computers involved the students in the business life.

This year the students were also offered a course in Business Computer Application. Computers have become increasingly more an important part of everyday life. For this reason, a class in computers was thought to be especially necessary.

Thanks to the concern of the teachers and the devotion of the students, a future in the business world may be just around the corner.

Ms. Gibson — Business Computer Applications

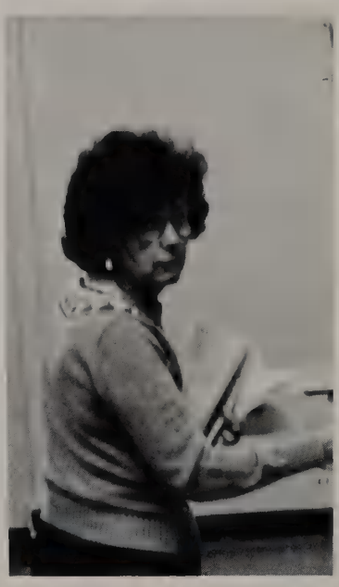
Ms. Levine — Clerical Office Practice, Intermediate Typing, Typing 1, Shorthand 1 & 2

Mr. Zabelin — Business Law, Business Math, Fundamentals of Office Practice

Mr. Bremke patiently waits for class to start.

Mr. Zabelin and Ms. Ellery discuss their plans for the weekend

Ms. Levine, tired after a long day?

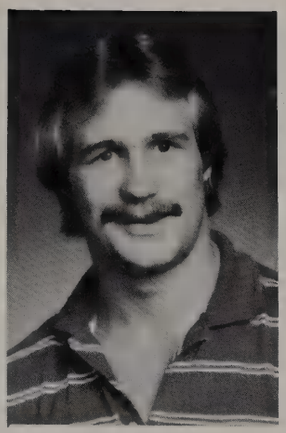


Ms. Radish shows the vogue look!

Ms. Ellery is relieved that the day is almost over.

Ms. Gibson says, "Boy, do I wish they'd listen."

Ms. Cook — Work Experience



Mr. Simmons — Fashion Merchandising, Fashion Marketing, Marketing and Merchandising

Ms. Wilks — DCT

DECA means togetherness.

Mr. Simmons is a strong leader.

Ms. Wilks is an encouragement to the students.

Pompano Beach High School was concerned about preparing students for working and living in the outside world. For this reason, the curriculum offered the students courses in preparation classes. The Cooperative Education program was especially effective in the training of students for jobs which they can hold for the rest of their lives.

The D.C.T. program gave juniors and seniors the opportunity to go to school part-time and work part time. They were given a chance for on-the-job-training in an occupation of their choice. Many of the students considered their job as an opportunity to get ahead in the business world.

DECA, an especially popular program, prepared students for occupations in Fashion Marketing and Distribution. The course offered the students a chance to be responsible leaders and to take an active part in the business world.

The Work Experience program gave students the opportunity to work and get a credit for it. This course was offered to freshmen and sophomores who were interested in an on-the-job-training course.

Over all, the Co-op program was a success. The students and teachers showed a true concern for the need to be prepared for working in the outside world.

Art

ART

We had a very extensive Art Department this year. Any student who wished to learn art as a future trade in life was given the opportunity. Those students who enjoyed art as a hobby were encouraged to push themselves to the full extent of their interest and talent.

Courses in Architectural Drawing, Engineering Drawing, Graphic Arts, Photogrpahy, Woods, and Metals taught the students how to make a living by using ideas they had developed in their minds and put on paper, or captured in a photograph or designed into a usuable product.

Courses in Arts and Crafts, Design and Drawing, Ceramics and Sculpture, Painting, Commercial Art, and Potter's Wheel encouraged students to let their imagination take control. The students' creativity was really displayed.

The Art Department captured the attention of the majority of the students due to their professionalism and creativity.

They really get into that fruit, don't they?

Mr. Walter, the camera man doesn't like you either!

Plenty of caffeine gets me through the day!

Even at twelve forty-five, Calvin Johnson and Mr. Motzner ham it up!

There's nothing like being strung along!!

It's the lean, mean, dancin' machine.

Ms. Carlson goes ape on Crazy Day.

Music

The Music Department at Pompano High was simply fantastic this year. It consisted of band, orchestra, guitar, piano, and chorus.

Band offered three different classes to the students who were interested. Concert Band was basically centered around new students interested in playing an instrument. Symphonic Band was composed largely of students who enjoyed District and State Contests. Jazz Band was offered for those students who enjoyed performing modern, popular, and music of the Big Band Era.

Orchestra was available to all students interested in playing a string instrument such as a violin, viola, cello, and bass.

Guitar and piano classes were offered for all students wishing to learn how to play the instrument or to improve on their talent.

Chorus was offered for those students who enjoyed music but did not play an instrument. Mixed Chorus was available for all beginning students. It introduced basic techniques in vocal production, choreography, and stage performances. Changing Tides was a ladies intermediate chorus. Tradewinds was a chorus offered for more advanced students who were devoted to more active performing.

As a whole, Pompano High's students had an overwhelming interest in music. Their performances were very professional and proved how talented the students were.

Ms. Bonfiglio — Guitar 1, Orchestra

Ms. Carlson — Piano 1 & 2, Mixed Chorus, Changing Tides, Tradewinds, Guitar 2

Foreign Language

Foreign Language was rather popular this year at Pompano High. Many students found a second language to be interesting as well as challenging.

Two and four courses were offered in Spanish, Latin, Italian, French, and German. The first year was basics. The teacher introduced the language to the students. The second year dealt with the teachers going more deeply into the language. Grammer and verb tense were stressed and the students learned to speak the language to some extent. The third year covered more oral work. It was mainly conversation, and the reading was mainly short stories. The fourth year consisted mostly of independent study. This included extensive reading, reports, and major projects.

Overall, the Foreign Language department developed cultural enrichment as well as an understanding of the country, its people, their lifestyle, and the language.

Ms. Renick calmly faces another day.

Mrs. Chandler, Como estas?

Bi-Lingual/Home Economics

Uno y uno es dos!

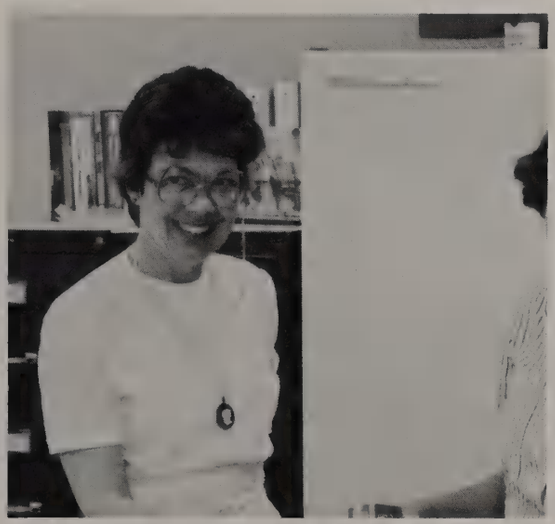
Yes, we know . . . it's Monday!

Pompano High had a Bilingual Program which accommodated students of very nationality with Limited English Proficiency or no English at all. The students were primarily instructed in English with the use of their native language whenever necessary. Four levels of English and reading were offered. Math, social studies, and science were offered too. Depending on how much English the student knew, they were put into the regular high school program.

Open mouth, insert foot.

Ms. Renick — Latin 1 & 2, Reading, Bi-Lingual English

Ms. Wishinsky — French 1, 2 & 3, Spanish 1, Bilingual English and Reading



Betty Crocker would be so proud!!

Ms. Tvarock — Foods & Nutrition, Clothing & Textiles, General Science, Fundamentals of Home Economics

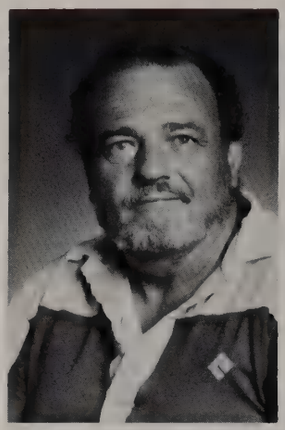
Home Economics gave students an opportunity to discover the occupation of homemaking and provided immediate participation as a family member. Basic knowledge and skills were included and were used to develop a positive concept toward self and others.

Agriculture

Agriculture was an off-campus course offered here at Pompano. The wide variety of classes allowed interested students to choose the class best suited to their liking.

Agricultural Science was a beginning course which offered training in plant science, animal husbandry, livestock, and vegetable production. Courses in Landscaping and Indoor Foliage gave students a chance to be imaginative with plants. Livestock Production dealt with the study of farm animals, proper care of the animals, and overall information concerning farm animals. Agriculture Mechanics I and II offered the chance to work with farm machinery, repairs, and proper maintenance.

Those students involved in these courses found them not only to be enjoyable but also to be beneficial.



Mr. Bretz — Agricultural Supervisor

Your pasture or mine?

Look what you made me step in!!

He works hard for the money!

How now brown cow?

Special Education

Mr. Attwood — Math Skills, Resourse, BL Math

Ms. Marcus, isn't that a little fruity?

Pompano High offered a course for special students who may have had learning disabilities. The teachers were exceptional and made it a priority to prepare their students for functioning in today's society. Individualization helped the students tremendously. The students were indeed special to receive such great attention.

Ms. Bauerband, waits for the pledge.

Ms. James — Communication Skills, World Geography, Resource

Ms. Marcus — LD Language, LD World Geography, VE Living Skills

Ms. Tatum — VE Math, LD Science, VE Social Studies

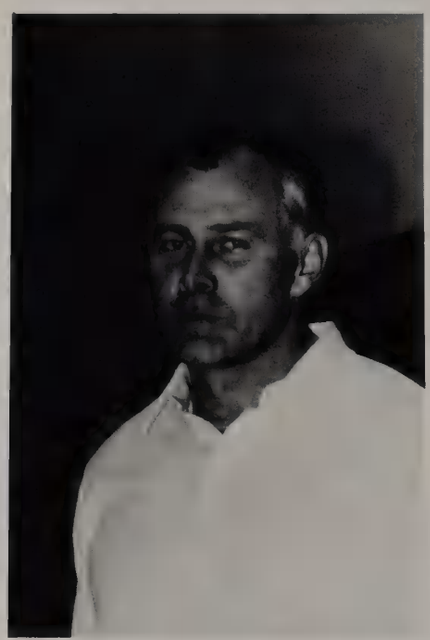
Physical Education

The Physical Education Department exposed students to a wide variety of activities including archery, basketball, football, gymnastics, square-dancing, soccer, softball, tennis, track, tumbling, volleyball, and wrestling.

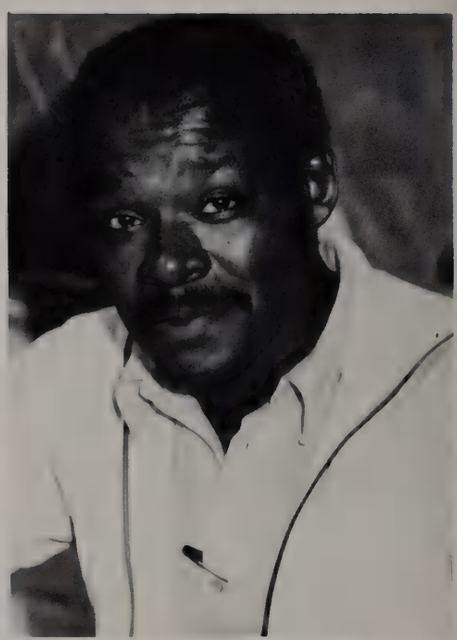
Coed Physical Conditioning was for individuals interested in complete muscle and cardiovascular efficiency. The course was divided between resisted exercise and activities to increase heart and lung capacity.

Watch for the birdie!

Let me tell you 'bout my kids.



I just made my decision; now don't you confuse me with the facts.



What do you mean you don't play football?!

Ms. Myricks, where's your class?

O.K. you guys, let's go to the "Roach"!

Cafeteria & Janitors

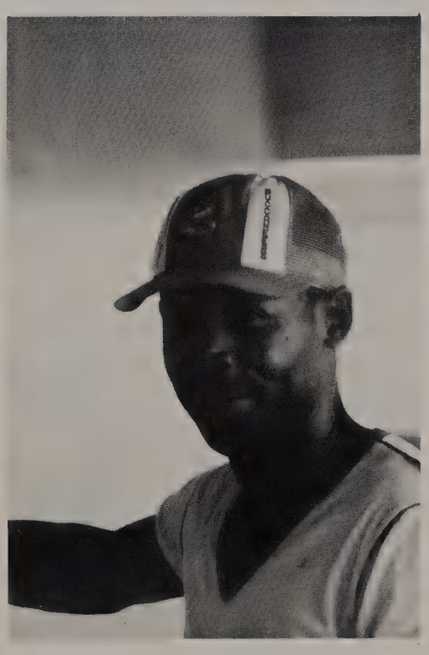
Our cafeteria workers take a dose of their own medicine!

The cafeteria staff at Pompano was daily seen busily preparing nutritious, hot meals for those students who wished to eat at the school rather than going out. They also prepared cold sandwiches for those students who preferred them over hot meals.

Hey Butch, a little more to the left.

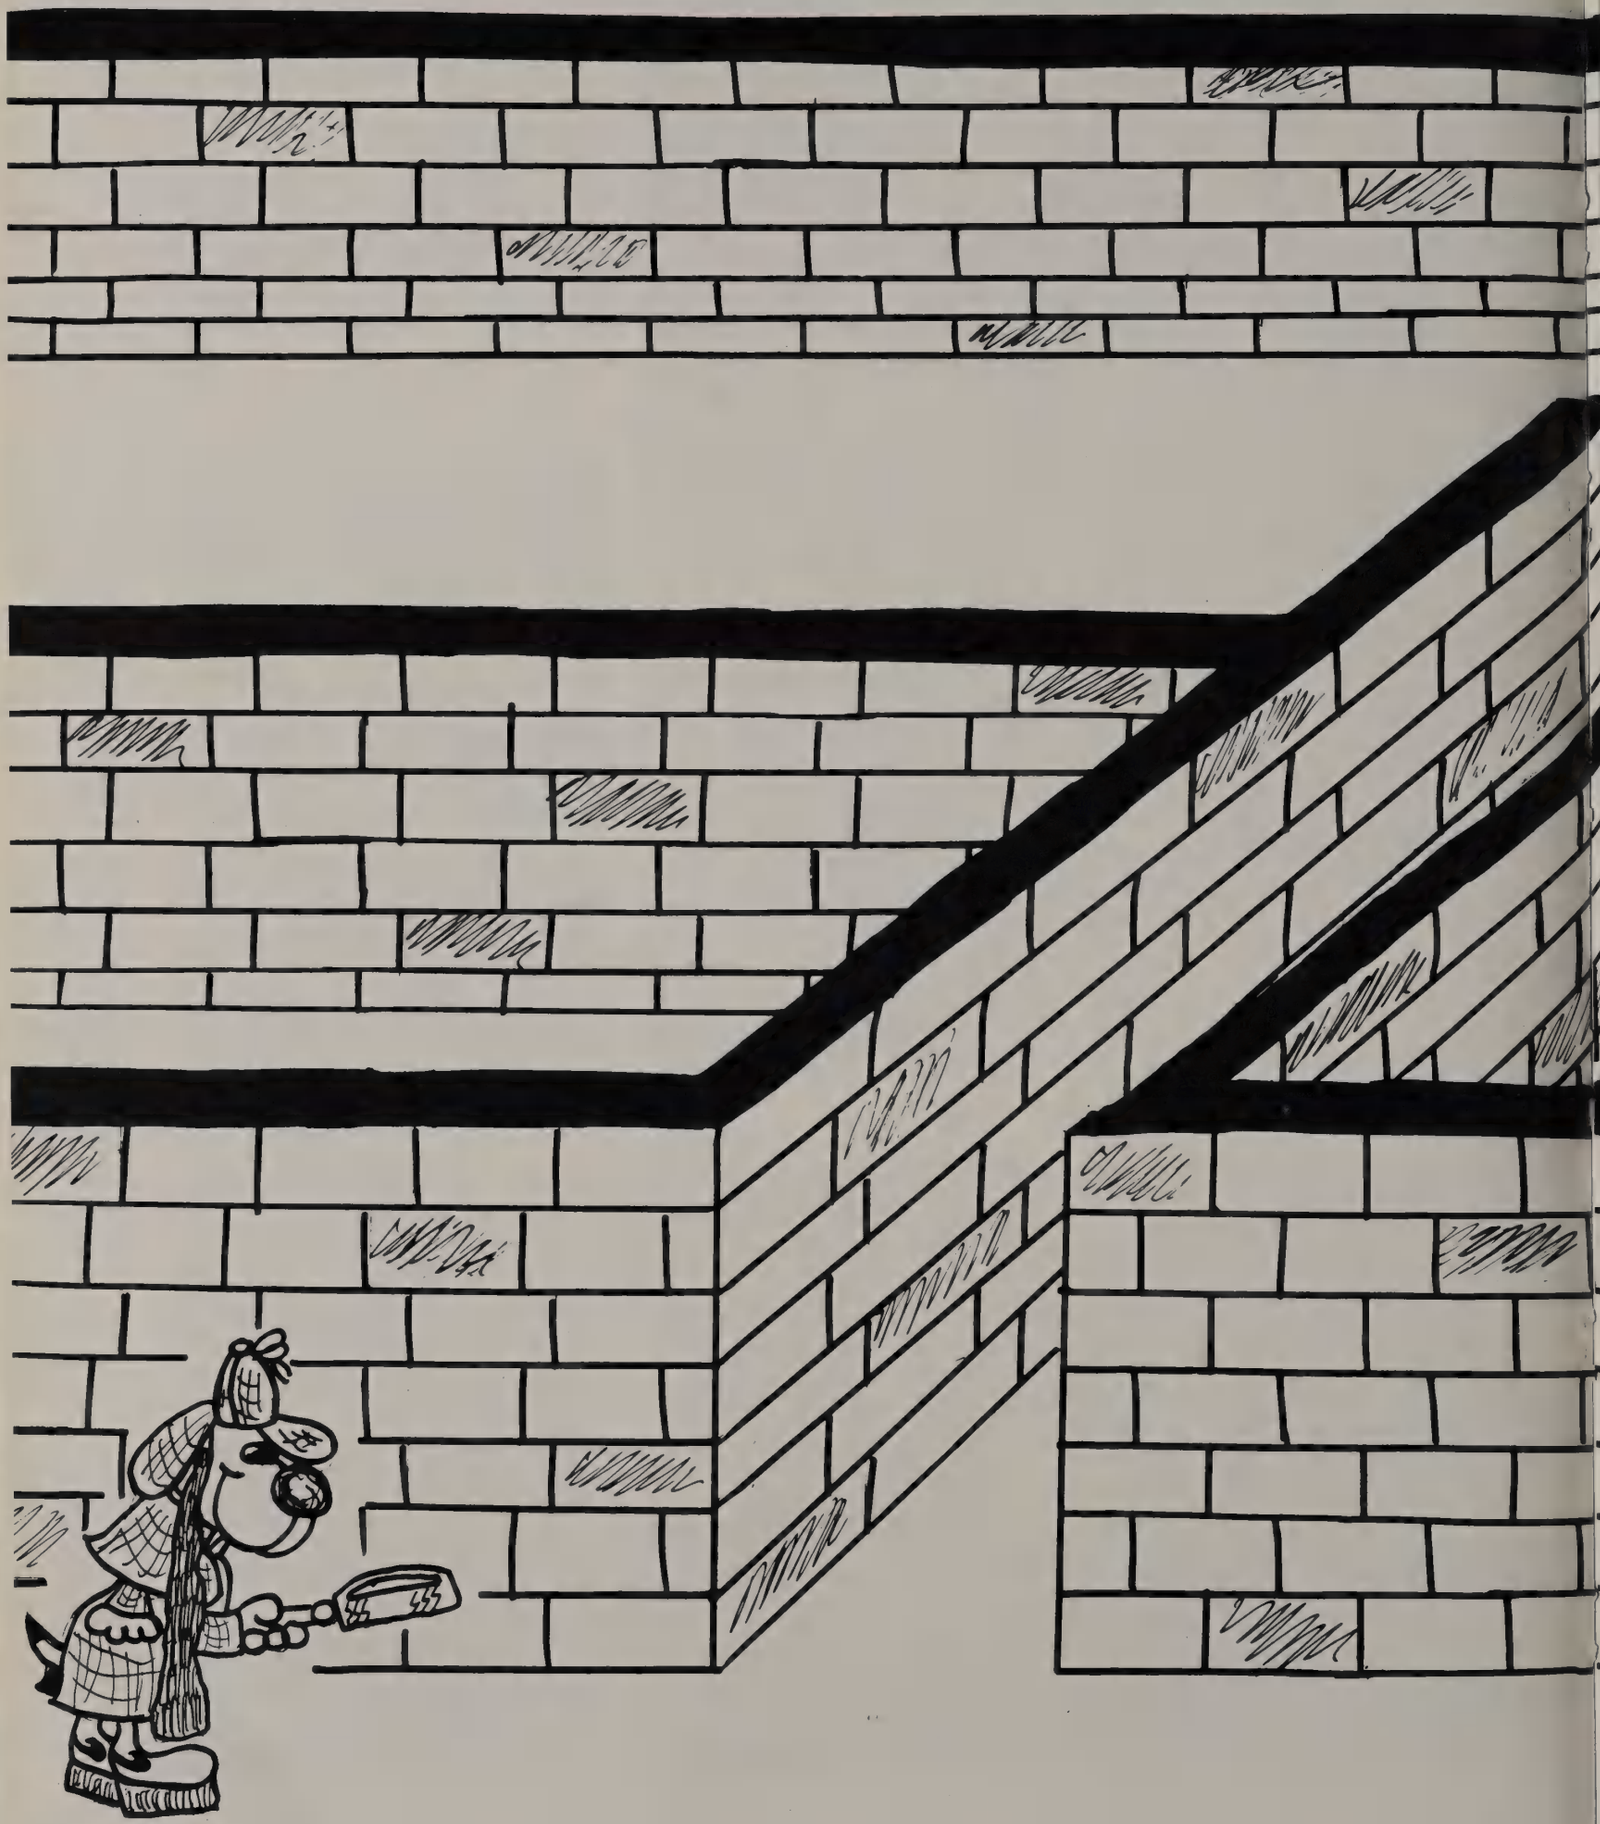
The janitorial staff kept our school looking its best. They did everything from cleaning ink off the floors to repairing broken lights. The janitors were always seen busy trying to improve the school's appearance.

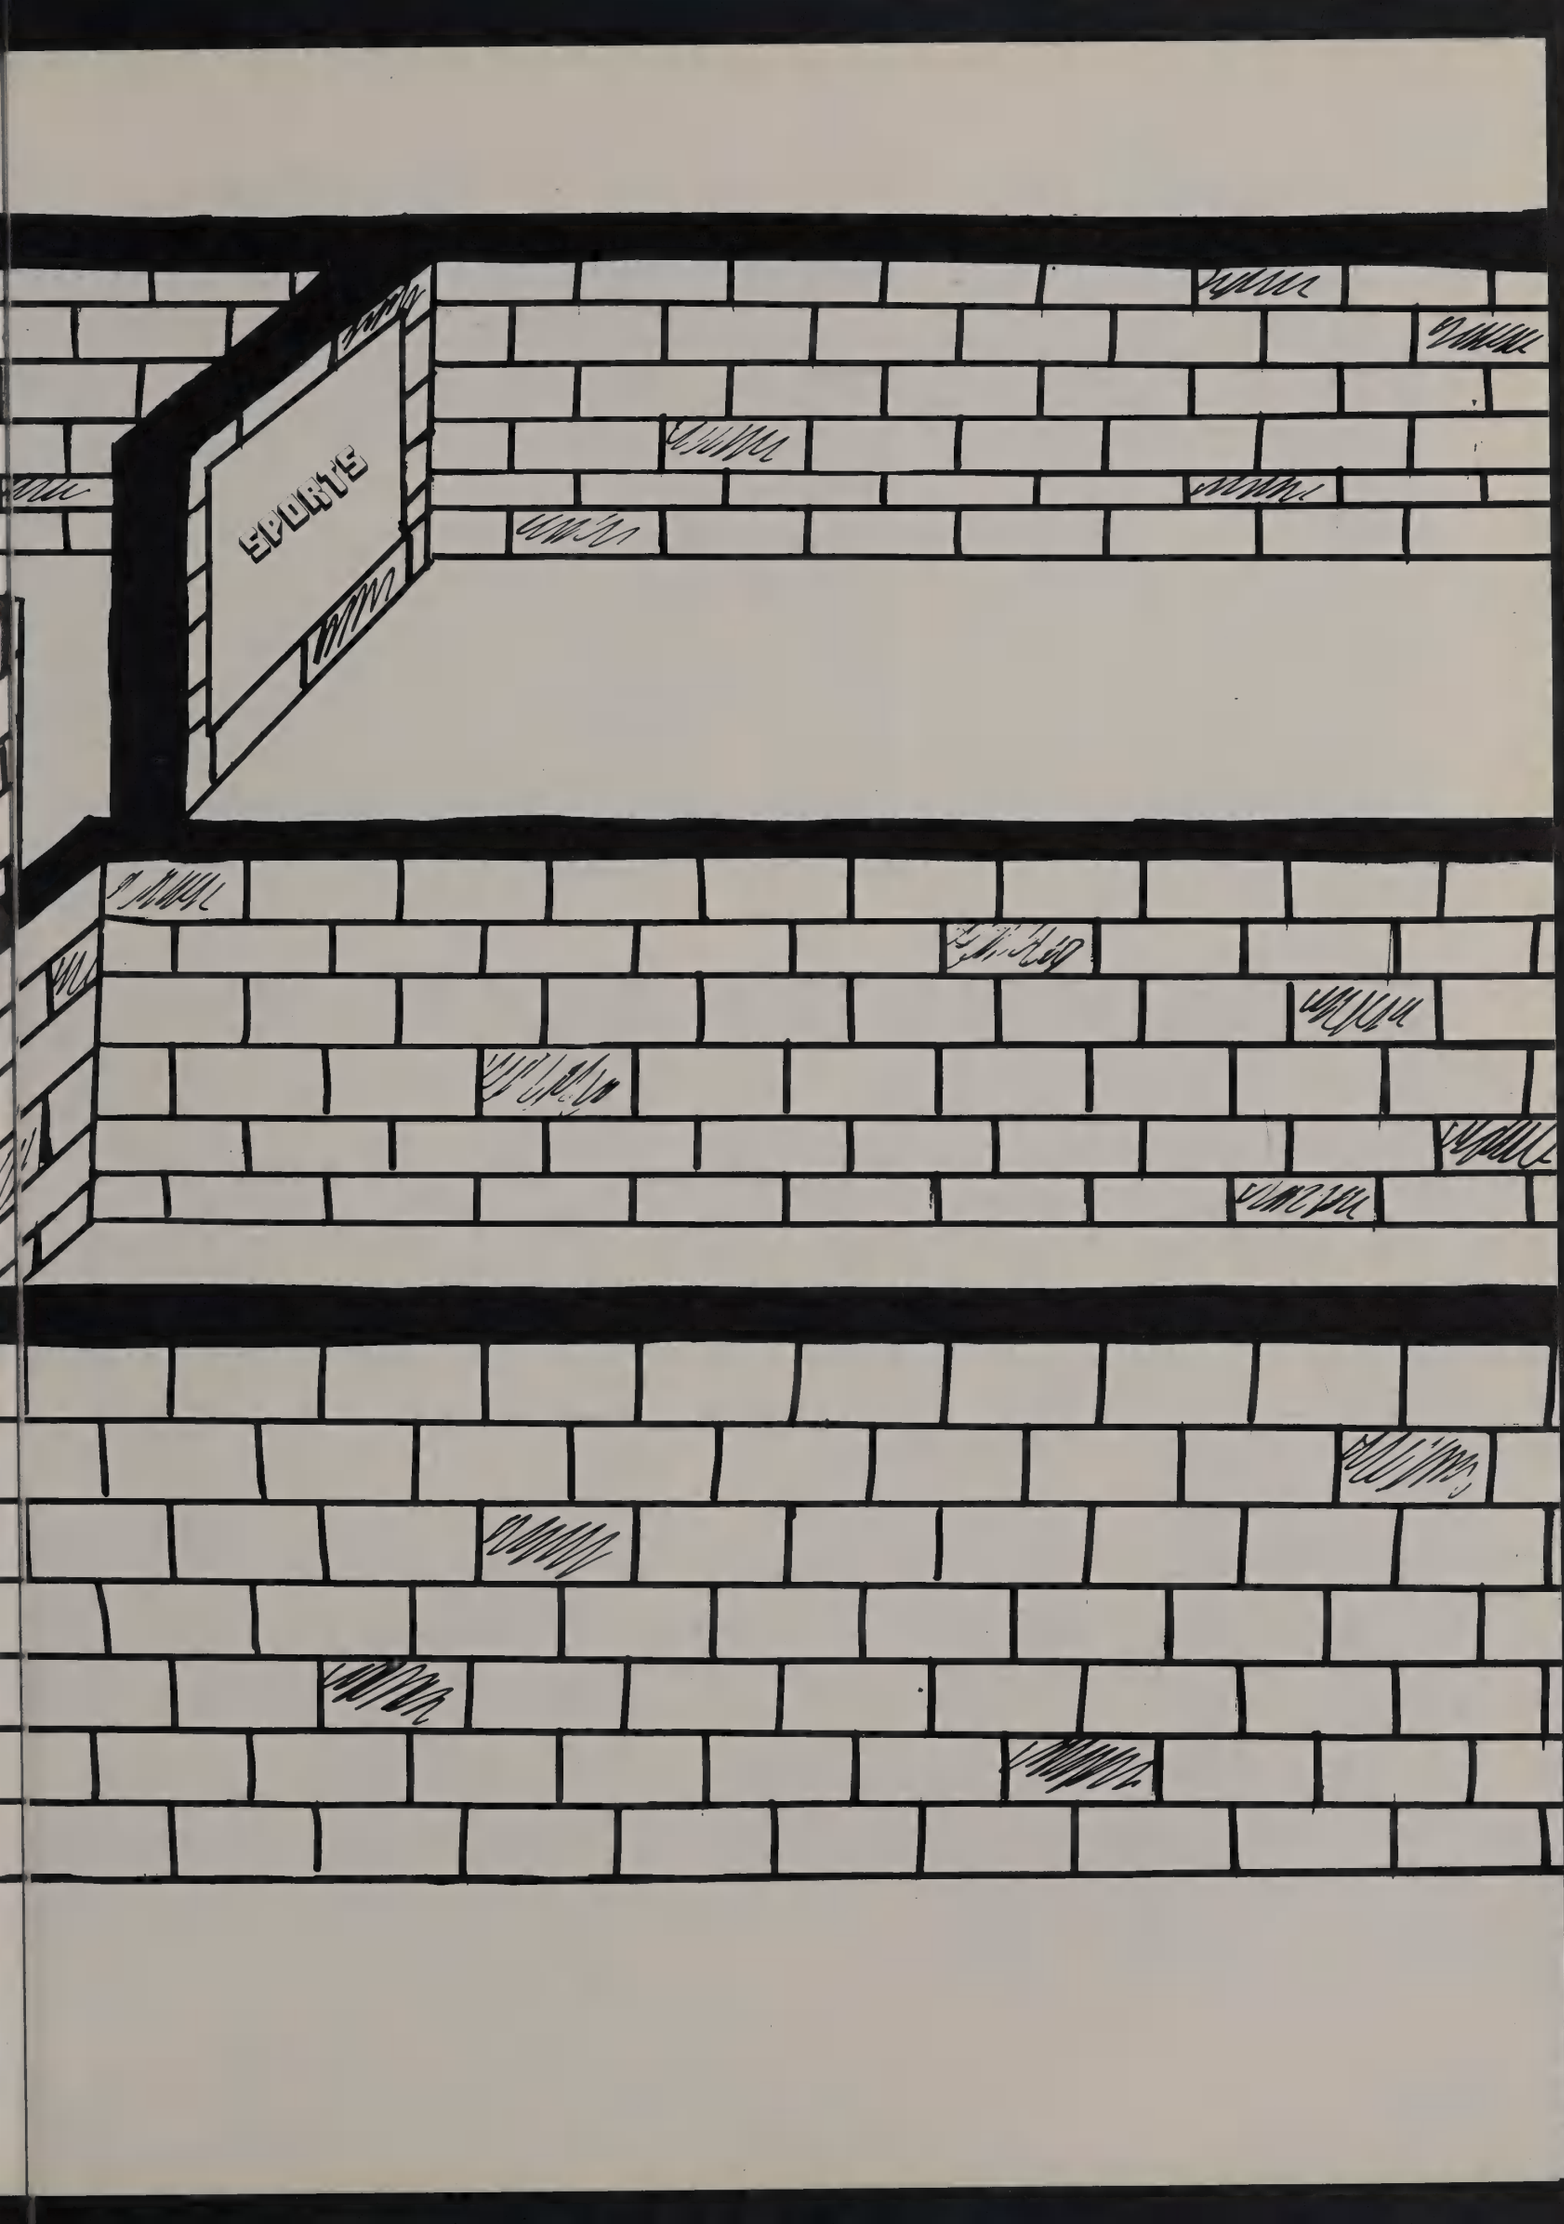
George plays with one of his many tools.



Tim takes one of many breaks!

And that's a fact Jack!





EVOLUTE

Varsity Football Forms A Foundation

The 1983 Golden Tornadoes Varsity football team's record was not one to brag about, but there was enthusiasm and a zeal of unity that was shared throughout the campus. Although the team didn't have a winning season, their spirit and enthusiasm stayed high! Out of the 36 Varsity team members, six were seniors; 16 were juniors; and 10 were sophomores. Returning notable players were Art McCrone, Boris Ward, Tevvy Washington, Steve Purinton, Garo Kalpakjian, and Andrew Jackson. These players, with the rest of the team, spent many painstaking hours, after school and on weekends, learning and perfecting their plays. The players were stimulated by their coaches' encouragement.

"Our goal this year was to build a solid nucleus since most of our players were inexperienced," stated Head Coach Dan Marguriet. With the experience gained this year, the players are looking forward to the coming years with the hope of returning Pompano to football prominence.

Steve McGirt seems to have his hands full.

Keith Bowman lends Steve Purinton a helping hand.

The Varsity Cheerleaders had a productive year: a year of growth, adjustment, new friendships, and learning the meaning of teamwork.

They were chosen because of their great cheering ability and superior character. Miss Gioia stated they were "Angels to work with because they all gave an unselfish amount of time, effort, and energy! Their enthusiasm and spirit was constantly an example for the entire student body."

They won superior honors at NCA camp, participated in Promenade competition, decorated locker rooms, and demonstrated the true ideal of school spirit.

PBHS can be proud of the 1983-84 Varsity Cheerleaders.

The Varsity cheerleaders get fired up!

It's been a long night for Missie Meyer.

A confused Chris McIntee

Suprenia Dorsey makes this difficult jump seem easy.

WHAT IS A CHEERLEADER?

A cheerleader is a special girl
with lots of charm and grace
Not just a girl with a pretty face

She always acts friendly, looks sharp as a pin
She can't let it bother her
if something's wrong within

It takes time to do things correctly,
so patience is often needed
It takes obedience to make them perfect,
so advice is always heeded

She has to be willing to work day and night
Or else things might not turn out
just right.

A cheerleader is a girl who has to yell very loud
Especially when no one else does in the crowd.

She has to keep smiling through victory and defeat
And has to keep showing that fighting beat.

The feeling of winning is certainly not bad.
But she knows when you lose you must not act sad.

It takes last minute planning for last minute cheers,
Not much time for eating or studying or last minute tears

She takes pride in her team for they're a great bunch of girls and guys
And it's especially for them that she tries.

A cheerleader is a girl whom when all the work is done
Would be very proud to say,
I'm one.

Recruits For Varsity

The 1983 Junior Varsity football team, coached by Wil Lippert and Mike Long, demonstrated an exuberant spirit this year. The team spent much time, after school and on weekends, practicing hard for every game. Due to an inexperienced team, which was small in number, many team members found themselves running both offensive and defensive plays. Endurance became a necessity; and because of this key quality, the defensive line was strengthened as the season progressed. It is true that the 1983 season was not a winning one, but it definitely upheld a Pompano treasured tradition: ***Determination!***

The Junior Varsity cheerleading squad was coached by Pamela Jones this year. She complimented these girls on their self-dicipline and complete dedication to strive to be the best. They spent countless hours perfecting every cheer and every formation to re-enforce their superior presence on the field. This was so important to the players because it gave them that little extra push to win, which is what the girls set as their ultimate goal!

Charming aren't they.

This year's girls' cross country team had an excellent season. Coach Mattingly said he's very proud of these girls who gave him his best ever rankings in State and Districts. In State, they finished in the top 10, and in Districts they were 4th out of 20 schools. The two top runners this year were Stephanie and April Kneer who both finished in the top 10 as runners in the State and County Invitational. Another key factor was the return of many veterans from last year. Those were Candy Bowen, April and Stephanie Kneer, Kathy Rardin, and Della Anderson. This high turnout of experienced runners was a major contribution to the team. Hats off to these fine runners who gave Pompano a very rewarding year.

Striding For Perfection

The Boys Cross Country team worked hard and tried to make it a successful year. Although two of their best runners didn't return, they made it through the year. With great running from Merrik Tomlinson, Gery Leamons and some other runners, the team members found that their agony and hard work after school paid off.

Some of the runners practiced during the weekends trying to get ready for upcoming meets. The goal of the Boys Cross Country team was to finish well and make it a winning season. From what we saw in this season they should be unbeatable in the coming years!

Volleyball "Sets" A Trend

The Girls' 1983-84 Volleyball team finished the season with dedication and inspiration. Although the season wasn't a winning one, the girls persisted on giving one-hundred percent every game. Co-captains Ruth Rendina and Susie Schroder led the team through a season of high spirit and team work.

Teamwork was the leading point in the girls' playing. They stuck together through every game; and best of all, they had fun while they were at it!

Of the ten players, six newcomers had skills good enough to make the Varsity team. "I wish we had nineth and tenth graders who are willing to stick with the program three or four years," says Coach Lambert.

The eleven Junior Varsity Volleyball players received much of their inspiration from the Varsity team. Outstanding Junior Varsity players included Lorine Davey, Susan Huber, Tracy Kalpahjian, and Susan Hodges. It was evident that the PBHS Volleyball team had "SET" a trend for all the other teams at Pompano to follow — dedicated teamwork!

Different Strokes For Different Folks

The Golden Tornadoes swim team has proven that with hard work and determination great things can be accomplished. With the help of many experienced and skilled swimmers, the Golden Tornadoes proved once again that they were nobody's push-overs. A lot of the experienced swimmers will be leaving this year, but the freshmen show great potential to carry on the outstanding reputation of the Pompano High swim team.

The swim team couldn't have done it without the help of their outstanding coaching staff. With the help of head Coach Mrs. Wheeler and assistant coach Ms. Johnson, the swim team had an impressive record of five wins and three loses.

Some of the members of the swim team who went to state were Susie Ogden, Stephanie Kneer, April Kneer, and Sherry Sadler. To Sherry Sadler this had been a special occasion because this was her first year at state competition.

Once again, Pompano's Swim Team shared that hard work, determination, and sportsmanship. They all understand that great things can be accomplished. All in all, the Pompano High swim team showed how it is done.

Pompano Hits The Courts

The 1983-84 Varsity Basketball Team had an up and down season. Even though they were young and inexperienced, they grew quickly in strength in the tough league in which they played.

Coached by John Critcher, his two goals for this season were to be above average and competitive in a very competitive district and to be mature as a team and play exciting basketball for the school and for the fans. The team's strong points were shooting, jumping, rebounding, and ballhanding. Their weak points were depth and quickness.

Coach Critcher stated, "I think we will bring the students of Pompano Beach a very exciting brand of basketball. A famous quote might be appropriate for the heart and desire of this year's Golden Tornadoes: 'It's not over 'till the fat lady sings.'"

J.V. Strutt Their Stuff

The 1983-84 Junior Varsity Basketball Team showed great determination during their season. Coached by Dennis Gillespie, his goal for the season was to organize a good J.V. basketball program that would help the players develop good basketball techniques and enjoy using them in the games they played this year. Even though their weak points of the game were rebounding, they made up for this weakness with their quick guards that could break for lay-ups. Gillispie stated, "Our team might have been a bit inexperienced, but they learned quickly. By next year we will be a tough team *to beat."*

Pompano's Golf Team On Par

The Pompano Golf Team has had a successful year. With a record of thirteen wins, no loses, and one tie, the Golden Tornadoes showed their true aggresive nature.

With the talented coaching of John Atwood, and the perseverance of the players, the team stroked their way to a high standing. Long hours of practice paid off to keep the recognition that the Pompano High Golf Team has held for years.

The 1983/84 girl's soccer season was a very critical one. The high turnout of new players and the low return from last year's team gave this young team a great disadvantage. With the win/loss record not being what the team had hoped for, Coach Thompson strived harder to nurture this new team into strong, energetic, and most of all, experienced players with an optimistic view for next year. Pompano High stands behind this hard working, dedicated, and confident team and wishes them the best for next year.

Heading For Success

The Golden Tornadoes Soccer Team showed great promise for the future this year. The season was one of learning, gaining experience, and perfecting skills, which helped the Tornadoes gain the respect that they have today. With the help of the coaching staff and some of the players, the new comers felt right at home. The newcomers this year were assisted by the experience of Mike Sterns, Jose Lara, David Hayman, Jim Summa and Keith Floyd.

With the help of Head Coach Lippert and assistant coach Mike Goodrich, the team learned many new and intriguing plays which helped them to be a successful team this year.

Off And Running . . .

The 1984 Girls Track team spent many long and tedious hours practicing and perfecting their skills. With the help of Coach Wittstein and the experienced runners, the newcomers felt at home. The main purpose was to sharpen the experienced runners' skills and to prepare the newcomers for the upcoming years. The tremendous effort shown by the girls' track team was evident by the amount of dedication they showed throughout the season.

Gone With The Wind

The 1984 Boys' Track team shared a year of gaining experience. With the help of Head Coach Terry Lakes and the experienced runners, the new comers learned and perfected their running skills.

The main purpose was not to win every race, but "to improve on last year's performance and overall team record," says Head Coach Terry Lakes. As a whole, the team mainly consisted of beginners with the exception of the experienced running skills of Tevvy Washington, Merrick Tomlinson and Sean Jeffries.

One of the reasons that the boys' team didn't work to its full potential was because of the lack of participation and depth. All in all, the boys' track team showed great potential throughout the year and great promise for the future!

Girls' Basketball Exemplifies Dedication

The 1984 Girls' Basketball Team showed great potential during the season. As a whole, lots of determination was shown by the team, and these girls will hopefully inspire more participants for next year. For the past two years, Pompano has been in the process of rebuilding the basketball team because of lack of participation in the program.

The key participants for the team were Cora Walls, Diane Martin, and Julie Grissett. Together with Candy Russell, Lisa Dempsey, and Janine Speciale, the team strived to reinstate Pompano as a dominating force in the county. All in all, the team showed great spirit and determination.

The 1984 Boys' Tennis Team is trying to maintain the tradition of tennis here at Pompano. Over the past three years, Pompano's Boys' Tennis Team has gone undefeated in conference play. Another strong year is expected with most players returning from last year. Key players returning are Brett Beattie, Clint Lyons, Ken Hazlett and Chris Slack. The team was also aided by the play of a German foreign exchange student, Oliver Haucke. With these players and also Brian Berger and Bryan Happ supporting, Pompano expects another year of great success in tennis.

New members Karen Riefler, Inger Hemminger, Becky Drucker, Adrien Drucker, and Julie Thompson have an average of about four months playing time, and are relatively inexperienced. Coach Lambert is very proud of the girls for showing such determination and participating instead of sitting in front of the T.V. watching the soaps. Next year, only two girls out of six might be returning, so come out and support the team.

Strike One Up For Softball!

The 1984 Girls' Softball Team shared many intense moments of competition, but it paid off with the experience and knowledge which was gained. "I feel confident about the team this year. We have many strong enthusiastic girls, and I feel sure we will have a winning season," says Coach Peck. Returning players Ruth Pendina, Sherry Sadler, and Stacy Chick led the team in search of a winning season.

With a lot of enthusiasm and the great potential of this team, Ms. Peck looks to reinstate Pompano as a softball force.

The 1983-84 Baseball Team was one of much experience. Coach Bob Johnson in his third year has an assistant Coach Jim Gabella who has played with many AA and AAA teams around the country with much experience.

Experienced seniors this year are Dave Benjamin, Doug Riedel, Tim Smith, Jim Mulkey. Players who learned a lot are Garo Kalpakjian, Paul Sennello, Frank Amendola, Leon Biegalski, Todd Clause, Rod Skirven, Robby Barnard, Barry Bailey, Brian McGrath, Rick Bedell, Pete Zengerella, John Troutman, David Ritter and Wes Johnson. Next year's team promises to be one of depth and strength.

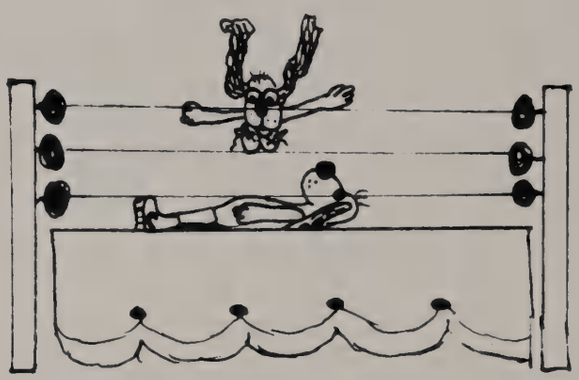
Wrestlers Look Toward The Future!



Wrestling is a very physically demanding sport which pits the individual abilities of an athlete in a one-on-one situation. The athletes wrestle three two-minute periods and score points through a series of moves, with the objective being to pin the opponents back to the mat. Quickness, flexibility, strength, and physical conditioning are stressed in Pompano High's Training Program.

Pompano High's Wrestling Program was in a rebuilding stage this year as all but one wrestler was an undergraduate. Senior Tony Cheatham finished the year at 9-4 and competed at Regionals. Freshman Rodrick Phillips also qualified for Regionals and Sophomore Kevin Kerrigan did well in his first year on the mat. Coaches Jamie Simmons and Ed Repass believe that Pompano has a good base from which to build for the future and looks forward to returning wrestlers and athletes new to the sport.

Mr. Bretz, the FFA advisor, attended college to become an agricultural teacher. He has 18 years of experience in farm at the present time. Teaching brings him self-satisfaction.

He teaches three classes, two of which are mechanical agriculture and the other is farm. In agricultural mechanics, the students dealt with farm equipment. The students worked on and used tractors and worked on small engines. They also learned to weld. In livestock production, the students have raised livestock on 18 acres of land which is farmed. They have raised cows, chickens, pigs, and two mules.

The students that Mr. Bretz has taught this year will have very good future experience in these fields of agricultural mechanics and livestock production. These students are ready to succeed after they graduate. Farm students have helped Mr. Bretz's teaching become a way of life.

As a first year teacher at Pompano High, Mrs. Nancy Cinci has done a fantastic job with her groups of pre-nursing majors. Mrs Cinci has a Nursing degree and a Bachelor of Science degree. She has been a nurse for 18 years and was an Operating Room Supervisor for a hospital.

The students experienced much of what the true reality that a nurse has to contend with. In the classroom there is a learning lab where the students learn basic health care and job entry level skills. They attend meetings at hospitals and work with nurses there. They also go to doctors' offices and veterinarian's for a better pre-college entry position.

Each of the students has an opportunity to go to regional, state, and national competition. The competition deals with medical terminology, designing a health display, and CPR or basic first aid.

The students performed community services also. They had a blood pressure booth at the Broward County Fair; they helped with the blood drive and the health screening at Cypress Elementary School.

Mrs. Cinci fells that the Health Occupations class has given her students a good educational background as well as leadership qualities. She hopes that her students can make their future career choice through Health Occupations.

President of the Car Club, Shanon Kelleher's insentive to begin this club was that there were many nice cars and he felt something had to be done with them.

Although the present year in the Car Club itself is their first, the guys feel this club will go on infinitely for years to come. Shanon, James, and Michael, feel many Junior members are going to cause a bigger demand for the club to grow next year. Kristy Fulp, being the only girl member, kind of "holds the barrell" for the guys by taking notes at the meetings themselves, keeping minutes, setting up the meeting time and places (which are held once a week on the students spare time after school).

Officer members include the President — Shanon Kelleher, Vice President — Red Skirvin, Treasurer — Mike Gomez, and the Secretary — Kristy Fulp. The cars the guys drive are not only a pleasure to look at and drive but yet a great benefit for the atmosphere of our parking lot.

Colonel Richard A. Rung, Lieutenant Colonel Timothy Tschettar and Chief Master Sergeant Fred Williams are advisors of the Junior ROTC class at Pompano High. Colonel Rung has 29 years of former training in this field, active airforce duty, three years of schooling at the University of Illinois, and also experience in commanding private and being a Senior ROTC commander. Joseph Lavati is considered "the right hand man" to all the advisors; this twelfth grader has given much assistance to all the classes and out-of-school functions concerning ROTC.

Some of the fund raisers Colonel Rung assisted the students with were the cookie and candy sales. There was a great outcome of profit in that for the club itself. Drill team, Colorguard, and Civic functions were all optional for the class members also. The elective clubs met after school and on weekdays, and the accomplishments were well noted.

The purpose of Junior Reserve Training Corps is primarily a three-year course of military instruction. The curriculums are academically comparable to a secondary level science course. Its point is to make today's youth better citizens now and in the future and instill in them personal honor, self-discipline and reliance, orderliness, patriotism and interest in Air Force Career.

It's not just a job; it's an adventure.

Faculty, staff, and the student body which interact with one another is otherwise known as the Student Senate. This class is advised by Arlene Marcus. With no former experience, Ms. Marcus' incentive was her enjoyment to work with high caliber students. She feels that she is a challenge to them as they are to her.

Dawn Hoble, president of the entire student council, has accomplished a wide range of "set goals" for the Student Senate itself. She is a great assistant to Ms. Marcus and the students. The officers of the class itself are Dawn Hoble holding the position of President; Kristy Fulp — Vice President; Eydie Benson — Secretary, Susan Wells — Secretary, Caroline Seymour — Treasurer, George Sortino — Parliamentarian and representative. All do an excellent job and feel that this class is quite a challenge.

Caring: "Our Way of Life"

Key Club is the high school version of Kiwanis International. It is a service organization with over 106,000 members world-wide.

Our own chapter is one of the most active clubs on campus. Their many activities this year included an appearance on the Jerry Lewis Muscular Dystrophy Telethon, a Halloween safety program at Pompano Beach Elementary School, a Halloween party for underprivileged children, and various members attended sign language classes.

Some of the members attended the National Key Club Convention at Ft. Worth, Texas. It was an enjoyable and informative experience.

This year's officers were President, William Panagakos; Vice President, Lisa Rhodes; Secretary, Pamela Boylan; and Treasurer, Christina Reasbeck. The Faculty Advisor was Mrs. Chandler.

The 1983-84 Golden Tornado Band was very active this year. They were involved in many community services, school activities and contests. They received vast recognition for their outstanding performances.

This year's new band director, Dr. Harrison Schlee, achieved great success in his new position. Dr. Schlee has taught on every level of education from the elementary school to the university and came to Florida from Ridgefield, New Jersey where he was Director of Music for the Ridgefield Public School System.

The band, instead of decreasing as it has in past years, increased by eight members. The concert band has an enrollment of fifty two members which is the largest it has been in three years.

The marching band is in the Silver Division because of its size. They have won many awards such as Best Drum Major, Best Brass, Best Guard, and First place field show.

The band has a very successful year. They hope to continue to keep the excellent reputation the Golden Tornado Band has always had.

The Year In Review

Each year the Beanpicker staff undertakes a great task. They try to capture an entire year on film and in print.

This year they did an excellent job under the leadership of competent sectional editors. They were very patient in teaching staff members the basic skills of layout and copy. "We were also very fortunate this year to have two dependable photographers," said Miss Jones, the yearbook advisor.

Another key element in the yearbook effort was Bob Tankoos. He is the representative from Josten's. He visited the class about every two weeks to help Miss Jones prompt the students to meet each deadline on time.

Editor-in-Chief, Julie Berger; Student Life Editor, Mindy Benjamin; and Miss Jones attended a workshop August 3-5 at Rollins College in Orlando. They brought back valuable ideas for the production of the yearbook.

The making of a yearbook is a long, difficult task. As one can see, however, it is a task that can be accomplished with great results.

Pompano's Future Stars

Mixed Chorus is a male and female non-audition music group. In this group, major emphasis is placed on learning to read music and getting used to performing. Mixed Chorus is open to all grades. This group participated in the fall and spring concerts. Although not limited to freshmen, this class fulfills the Performing Arts requirements that freshmen have. This group, along with the other two choruses, is directed by Mrs. Carlson.

It's Music To Your Ears

Changing Tides is an all-girl, advanced chorus. Entrance is by audition only. This year they participated in the fall and spring concerts. They also competed in a contest in both the pop and classical catagories.

This year Changing Tides participated in a Christmas Concert at the Pompano Beach Recreation Center. They also held car washes and sold M&M's. All the chorus classes helped with the Homecoming float, which received the "Best Float" award in the parade.

All members of Changing Tides put in long hours of practice, and the result was evident in their concerts.

Tradewinds is the advanced mixed chorus. Thirty-five members strong, they do forty concerts a year. In addition to attending state competition as a group, they also sent two soloists, Eydie Benson and William Panagakos. Tradewinds also sent five students to the University of Miami Honors' Choir.

Throughout the year they have performed for various civic and community groups including the Pompano Beach Chamber of Commerce and the Pompano Beach Rotary Club. In addition, they performed at Pompano Fashion Square, Sun Bank, and Heritage Holiday at Port Everglades. Tradewinds also participated in both the winter and spring Concerts.

Tradewinds has devoted hours to practice and the results are excellent. Keep up the good work Tradewinds!

Italian International

The Italian International club is a small club with devoted members. Ms. Gutterman advises the club. This is her first year as advisor, and the club members feel that she has done a terrific job and voted her most valuable.

The President George Sortino feels that the club has become a success, not only become of the advisor, but because of the devoted members. Their float placed fifth in the Homecoming parade and was one of the largest floats that Pompano has ever had. They cleaned and relandscaped the front office. They have held car washes, bake sales, and a faculty luncheon also. The club desires to increase its membership, but hopes to keep the same dedication of its members.

JETS Take Off

The Junior Engineering Technological Society, otherwise known as the JETS club has come to Pompano High. Mrs. Denise Gillespie, the advisor for the club, was also the one responsible for organizing the club. The club consists of approximately 30 members from chemistry and physics classes. JETS is an interest club for those students who want to excel in the fields of engineering, physics, and chemistry.

The club participated in Homecoming and has held fundraisers to collect money for their engineering-related field trips. Certain students from the club also attended an Open House and competition at the University of Miami.

The club hopes to grow in membership and hopes to inspire a new interest in these exciting technological fields.

SAC And . . .

This year Pompano High has two new clubs! Sac and Sacettes. These groups together form the Senior Athletic Club which stimulates spirit at our school activities. Since this club has begun, our school spirit has increased tremendously.

Sac and Sacettes President, Michelle Thomasson, began the clubs this year. With help from school sponsors Mr. Gillespie and Mrs. Cinci, Michelle achieved a huge success with this senior supporters group.

As the Sac and Sacettes first year at Pompano, the greater portion was spent in organization. They participated in Homecoming week and entered a fantastic float with the theme of International Sports in tune with the school's "Pompano Goes International" theme.

This club, for seniors only, gives the underclassmen something to look forward to. Next year the club hopes to see even greater participation in the arousing of school spirit through the Senior Athletic Clubs.

Pompano's Finest

National Honor Society is for those few elite students who attain a cumulative grade point average of 3.6 or better. A student must also be in at least tenth grade to be a NHS member. New members are inducted every year in the winter.

This year, under the leadership of President Winn Soldani, the National Honor Society participated in the Homecoming parade and held a candy sale. They also nominated John Hale and Eva Strelka for the National Honor Society Scholarship.

A membership in the National Honor Society is a privilege all students hope to attain. However, only a few make it. Pompano High is proud of these students. This year's officers were Winn Soldani, President; Kim Prescott Vice-president; Debi Randolph, Secretary; and Patrick Lee, Treasurer. Thanks to these and the rest of the members, National Honor Society has had a great year.

Interact In Action

Interact is a service club for the well-rounded student. Interact is a junior branch of the Rotary Club. The Rotary and Interact work close together. The Rotary has helped the club by donating supplies and money for certain occasions such as homecoming. Ray Le Fever is the advisor for Interact which consists of a good group of students. The club has approximately 75 members. The entire club contributed in the making of the Homecoming float which won third place for their tribute to Ireland. The club has held membership drives, car washes, Christmas tree sales, a homework assistance program, as well as many other fund raisers. The club hopes to accomplish just as much in the future years to come.

Exchangettes: Reaching Out To Pompano!

Kim Prescott says, "What a bargain!"

Club officers: Kim Prescott, Cheryl Rataiczak, Katie Boal, Kim Keller, Lorine Davey

Exchangettes is a group designed to help out the school and community. Mrs. Collier, their advisor, helps the members achieve public service goals. Exchangettes sponsored the concession stand at home football games, the blood drive, and the mum sale at homecoming. Other activities Exchangettes sponsored this year included a trip to a children's hospital where they dressed up to entertain the children. They also provided luncheons for the teachers on teacher work days. This year's officers include Cheryl Rataiczak, President; Kim Prescott, Vice-President; Katie Boal, secretary; Kim Keller, Historian; and Lorine Davey, Treasurer.

Mrs. Green, who has been involved with the club for three years, said she enjoyed being with the students all day.

The officers are President, Mr. DiMaria; Vice-president, Mrs. Kaminski; Treasurer, Mrs. DiMaria; and Secretary, Mrs. Green. The Booster Club continues to be a vital part of Pompano Beach High. Thanks a lot Booster's; keep up the good work!

The Marine Biology Club has arrived at Pompano High. This is an interest club. The students involved in the club are concerned with Florida's marine enviroment and life. As this is the club's first year, their sponsor, Mrs. Evelyn Blow, is quite proud of her club and has big future hopes for the next few years. The club consists of twenty to thirty members. The club has been involved with many exciting events this past year. They attended the NOAA open house at Virginia Keys Science Complex where they observed NOAA labs with the major theme of "The Year of the Ocean." They were the guests of the Deerfield International Fishing Pier. They have decorated the display cases in the Science building with relation towards science topics. They also saluted Bimini with their festive island-decorated float at homecoming. The club urges those students who are interested in Florida's marine life to come and be a part of the Marine Biology Club.

To My Family

I want to thank you for all you've done, not just for me but also your son;
You've always given me anything I choose — my '79 camaro — boy, we just can't loose;
Mike has always strived to be the best, which will encourage me towards my quest; Grams and Gramps were always there, for if Mom said "no" Grams wouldn't DARE; All of you are one of a kind you're the best anyone could find.
Love ya always,
"Doc" Rendina

A Message To The Graduating Class Of 1984

"As persons, we learn from birth that we need one another. We are social beings, and we can live usefully only in relationships with others.

The church fosters a mutual ministry between the generations in all that it undertakes. The members who are older have need of the fresh viewpoint of young persons, those who are young need the benefit of older person's counsel.

TOGETHER, regardless of age, all Christians can consider what it means to 'bear one another's burdens.' "

To KIM:

Graduation day, wow! Seems like yesterday, we walked the floor with you. I never knew a baby could cry so much.

Memories of our "Little Tooter" and her many casts from broken bones, the Girl Scout cookie badges which dad earned, the ringing of the phone "I'll get it, it's for me", a bedroom which looked like three hurricanes hit it at once, 25 towels a week, one ringers, a parade of kids who had no place to go, a door bell chime, weird horns with songs playing out front, a small blue truck, Freshman President, flowers and candy for Senate, Exchangette initiation, the gas bills, worn out tires, the many midnight talks, phone calls at all hours.

From the tears of a baby to the tears, laughter and joy of a young lady.

We are proud of you. You have become a beautiful young lady with a terrific personality and we are proud of you.

We wish you all the best. Congratulations on your Graduation. You will go far and remember, we will always believe in you and love you.

Dear Lori —
The land of make-believe is
gone;
The dolls with which she used to
play
Are sleeping high on closet
shelves
For thus was childhood laid
away.
But time transforms a little girl
By adding beauty, charm and
grace;
And gives to her that special
role
To make the world a better
place.
Now proudly dressed in cap and
gown
She clasps that all-important
scroll.
Her smiling eyes express the
thanks
For this — her long awaited
goal.
May hope be always in her heart
And all her happy dreams come
true;
Her zeal in serving others keep
The joy of living shining
through.
We pray that life will treat her
well
And keep her helpful, kind and
good,
That she may justly claim the
right
To wear the crown of
womanhood!

Tara, I really am glad I got to know you this year. You were so much fun! I will never forget about this past summer, I had the best time! Love ya, Mis

It's all over! Sometimes it seemed like there was no end to our countless hours of continuous aggravation. We have strived to make this book of lasting memories one of the best ever. We have had our share of problems like any other yearbook staff has, but we pulled it off!!! We uncovered new ideas and worked around the obstacles, and all for what? For the pride and self-satisfaction of saying, "WE DID IT!" All of those who put forth an effort should be commended.

I have certain people to thank for their lasting dedication and contributions. Barb, Margaret, and Sharon, what can I say? You all did a super-terrific job. Thank you for being so patient. You picked up everything without any problems at all. You did it Mis — I'm proud of ya! Susie and Chris, if everyone had your dedication I wouldn't have a thing to worry about. David, thank you so much for the excellent pictures you took for my section. G.B., thank you for getting everyone elses pictures. Kathy, Patti, and Wayne, congratulations on a job well done. Anne, all by yourself, you did it. Herb, your terrific talent is what helped bring Sherlock to life. You did a great job. Andrew and Mark, thank you for coming to our rescue. We couldn't forget Miss Jones. We sure have come a long way. You and I both began without the least bit of knowledge of what yearbook really was. From square one till now, we have tackled everything humanly possible. Thanks for being everyone's best friend, including mine. We've shared it all!
